STUDY
PROVES:

"Stimulant-Free" Rapid Fat Loss*

In an extraordinary, double-blind, placebo control clinical study, 20 overweight men and women were divided three groups, Group A received the active Phosphoserine™ "Rapid Fat Loss Formula" complex, Group B received a placebo, and Group C acted as a control (received nothing). Each group was instructed to follow a satisfying 1800 calorie meal plan and modest 3-day per week exercise program.

After only 6 weeks, the verified results were astounding! Group A (the group taking the Stimulant-Free "Rapid Fat Loss Formula" Phosphoserine™ complex) experienced a significant decrease in overall body weight* fact, the loss of body weight was more than 8 times greater the group who simply followed the diet and exercise program alone.*

Even more startling was the fact that the average 1 of actual body fat in the Stimulant-Free Phosphoserine™ complex group was just short of 10 pounds!† That's a loss of actual body fat 62% greater than the placebo group and 63% greater than the control.*

But there's more. The Stimulant-Free Phosphoserine™ complex group experienced a marked reduction in fatigue levels and felt 32% more energetic.*

What else does this scientifically validated clinical confirm? Simply this: **Finally, there's a 100% stimulant free, clinically proven way to lose excess pounds of deep spongy fat and flab.* Guaranteed!**

Note: Of course, if you are not sensitive to ephedra, caffeine acetylsalicylic acid (aspirin), then use our ECA based "Rapid Weight Loss Formula." Our ECA based "Rapid Weight Loss Formula" remains America's #1 (most powerful) no diet, no exercise fat burning champion.*
