FEOSH OFFICE INSPECTION CHECKLIST

HAZARD	YES	NO
Indoor Air Quality		
A-1 Are HVAC sensors free and clear of heat-producing devices?		
A-2 Are window convector/induction units free of furniture, paper or other		
obstruction?		
A-3 Are air diffusers clear and free of obstructions or employee		
modifications?		
A-4 Are walls, floors, and other surfaces free of water infiltration, or		
evidence of water damage?		
Electrical Cafety		
Electrical Safety		
E 1 And all and line and a major and allowed by the interpretations		
E-1. Are all appliances and equipment plugged directly into receptacles?		
(e.g., refrigerators, microwave ovens, coffee pots, network printers, etc.)		
E-2. Are power strips or surge protectors used only to connect low		
amperage office appliances and equipment such as desktop printers,		
computers, fax machines, phones, desk lamps, radios, etc.? E-3. Are power strips or surge protectors plugged directly into wall outlets?		
(NOTE: Power strips plugged in series or into one another is prohibited.)		
E-4. Are flexible cords and cables free from frays, splices or taps, exposed		
wires, or deteriorated insulation?		
E-5. Are flexible cords properly installed such that they are not run across		
aisles or passageways, under floor mats, through walls, or subject to be		
pinched by doors or furniture?		
E-6. Is adequate number of outlets provided to avoid the use of multiple-		
plug adapters? (NOTE: Multiple-plug adapters are prohibited.)		
E-7. Are flexible cords and cables used appropriately and rated for the		
load? (NOTE: Household zip cords should not be used. These are not		
appropriate for office loads.)		
E-8. Are junction boxes, receptacles, and switches properly secured and		
provided with tight-fitting covers or plates; therefore, not exposing wires or		
conductors?		
E-9. Are plugs on equipment in good working condition with no bent or		
missing contacts or exposed wiring?		

F-1. Are all exit doors and passageways free of obstructions? F-2. Are exits marked with an exit sign and illuminated by a light source? F-3. Is the direction to exits, when not immediately apparent, marked with visible signs? F-4. Do exit doors open easily and immediately with one hand? F-5. Are doors, passageways or stairways, that are neither exits nor access to exits and which could be mistaken for exits, appropriately marked "NOT AN EXIT," STOREROOM," etc? F-6. Are sprinkler heads kept clear of stored material? (NOTE: 18-inch minimum clearance required between sprinklers and the top of storage.) F-7. Are fire extinguishers mounted in readily accessible locations? F-8. Do fire extinguishers mounted in readily accessible locations? F-9. Is emergency lighting in stairways, hallways and other work areas in operable condition? F-10. Are fire alarm pull boxes visible and unobstructed? F-11. Are office areas free of open flames and other sources of ignition, such as candles and incense burners? F-12. Have all employees been trained in the building Occupant Emergency Plan? F-13. Are Occupant Emergency Plan team members identified in your area? F-14. Has an area monitor been identified for you area? F-15. Are primary and secondary means of egress identified for your area? (NOTE: These should be posted.) F-16. Is your assembly area identified? F-17. Do you have a means to account for personnel? H-1 Are offices free of chemicals other than general office supplies? Medical Services and First Aid M-1 Are first aid supplies easily accessible? M-2 Are personnel aware of the procedures for obtaining medical services and first aid? M-3 Are emergency plone numbers posted where they can be readily found in case of emergency? (NOTE: Emergency phone numbers should be on each phone.) M-4 Are CPR and First Aid trained personnel identified? Ergonomics R-1 Is office equipment /seating adjustable? R-2 Have employees been trained in office ergonomics?	HAZARD	YES	NO
F-2. Are exits marked with an exit sign and illuminated by a light source? F-3. Is the direction to exits, when not immediately apparent, marked with visible signs? F-4. Do exit doors open easily and immediately with one hand? F-5. Are doors, passageways or stairways, that are neither exits nor access to exits and which could be mistaken for exits, appropriately marked "NOT AN EXIT." STOREROOM." etc? F-6. Are sprinkler heads kept clear of stored material? (NOTE: 18-inch minimum clearance required between sprinklers and the top of storage.) F-7. Are fire extinguishers mounted in readily accessible locations? F-8. Do fire extinguishers have a current service tag that shows they are serviced and maintained annually? F-9. Is emergency lighting in stairways, hallways and other work areas in operable condition? F-10. Are fire alarm pull boxes visible and unobstructed? F-11. Are office areas free of open flames and other sources of ignition, such as candles and incense burners? F-12. Have all employees been trained in the building Occupant Emergency Plan? F-13. Are Occupant Emergency Plan team members identified in your area? F-14. Has an area monitor been identified for you area? F-15. Are primary and secondary means of egress identified for your area? F-16. Is your assembly area identified? F-17. Do you have a means to account for personnel? Mazardous Substance Communication H-1 Are offices free of chemicals other than general office supplies? Medical Services and First Aid M-1 Are first aid supplies easily accessible? M-2 Are personnel aware of the procedures for obtaining medical services and first aid? M-3 Are emergency phone numbers posted where they can be readily found in case of emergency? (NOTE: Emergency phone numbers should be on each phone.) M-4 Are CPR and First Aid trained personnel identified? Ergonomics R-1 Is office equipment /seating adjustable? R-2 Have employees been trained in office ergonomics?	Fire Protection & Life Safety		
F-2. Are exits marked with an exit sign and illuminated by a light source? F-3. Is the direction to exits, when not immediately apparent, marked with visible signs? F-4. Do exit doors open easily and immediately with one hand? F-5. Are doors, passageways or stairways, that are neither exits nor access to exits and which could be mistaken for exits, appropriately marked "NOT AN EXIT." STOREROOM." etc? F-6. Are sprinkler heads kept clear of stored material? (NOTE: 18-inch minimum clearance required between sprinklers and the top of storage.) F-7. Are fire extinguishers mounted in readily accessible locations? F-8. Do fire extinguishers have a current service tag that shows they are serviced and maintained annually? F-9. Is emergency lighting in stairways, hallways and other work areas in operable condition? F-10. Are fire alarm pull boxes visible and unobstructed? F-11. Are office areas free of open flames and other sources of ignition, such as candles and incense burners? F-12. Have all employees been trained in the building Occupant Emergency Plan? F-13. Are Occupant Emergency Plan team members identified in your area? F-14. Has an area monitor been identified for you area? F-15. Are primary and secondary means of egress identified for your area? F-16. Is your assembly area identified? F-17. Do you have a means to account for personnel? Mazardous Substance Communication H-1 Are offices free of chemicals other than general office supplies? Medical Services and First Aid M-1 Are first aid supplies easily accessible? M-2 Are personnel aware of the procedures for obtaining medical services and first aid? M-3 Are emergency phone numbers posted where they can be readily found in case of emergency? (NOTE: Emergency phone numbers should be on each phone.) M-4 Are CPR and First Aid trained personnel identified? Ergonomics R-1 Is office equipment /seating adjustable? R-2 Have employees been trained in office ergonomics?	F-1 Are all exit doors and passageways free of obstructions?		
F-3. Is the direction to exits, when not immediately apparent, marked with visible signs? F-4. Do exit doors open easily and immediately with one hand? F-5. Are doors, passageways or stairways, that are neither exits nor access to exits and which could be mistaken for exits, appropriately marked "NOT AN EXIT." STOREROOM," etc? F-6. Are sprinkler heads kept clear of stored material? (NOTE: 18-inch minimum clearance required between sprinklers and the top of storage.) F-7. Are fire extinguishers mounted in readily accessible locations? F-8. Do fire extinguishers mounted in readily accessible locations? F-9. Is emergency lighting in stairways, hallways and other work areas in operable condition? F-10. Are fire alarm pull boxes visible and unobstructed? F-11. Are office areas free of open flames and other sources of ignition, such as candles and incense burners? F-12. Have all employees been trained in the building Occupant Emergency Plan? F-13. Are Occupant Emergency Plan team members identified in your area? F-14. Has an area monitor been identified for you area? F-15. Are primary and secondary means of egress identified for your area? (NOTE: These should be posted.) F-16. Is your assembly area identified? F-17. Do you have a means to account for personnel? H-1 Are offices free of chemicals other than general office supplies? HAZARD	YES	NO
Sanitation		
S-1 Are restrooms clean and in sanitary condition?		
S-2 Is food waste properly bagged before being disposed?		
S-3 Are areas where food is consumed clean?		
S-4 Are food and drinks stored, prepared and consumed away from chemicals and cleaning products?		
S-5 Are water coolers clean and sanitized?		
Working Surfaces		
W-1. Are floors, aisles, and passageways clean and dry?		
W-2. Are carpets tight, so that there are no tripping or slipping hazards?		
W-3. Are office areas uncluttered, without excessive accumulation of paper or other combustible material?		
W-4. Is there at least 18 inches of open space (room) provided in office		
areas between desks and other furniture, and adjacent to doors to facilitate		
exit into hallways? (NOTE: Where special needs personnel are located,		
American for Disabilities Act (ADA) requirements will apply.)		
W-5. Are there holes in the floor or other walking surfaces?		
W-6. Are changes of direction or elevations readily identifiable?		
W-7. Are passageways and workspaces free from protruding objects?		
W-8. Are all work areas illuminated?		
W-9. Are all materials stored such that they are easily retrieved without		
climbing on equipment or surfaces?		
W-10. Are items such as bookcases, shelving units, pictures, and bulletin		
boards secured and stable?
