Cutless 50W. The Turf Growth Regulation Standard for *Poa* Conversion.

- Selectivity suppresses the growth of *Poa annua* to a greater degree than desirable perennial turfgrasses.
- Greater "regrowth" potential vs. other growth regulators leading to faster conversion.
- *Poa annua* conversion with no disruption to the playability of the turfgrass.
- Improved turfgrass quality.
- Less impact on bentgrass and bluegrass than paclobutrazol.
