18 convenience without any additional cost to the Government. The transportation charges shall be assessed  
19 on the basis of the equipment ordered by the shipper, unless charges on the equipment that was furnished

21

22 **ITEM 60 SPECIALIZED SERVICES.**

23  
24 Unless otherwise provided in an individual tender, carriers will **NOT** be required to furnish the specialized  
25 services contained in the following ITEMS of this tender herein:  
26

- 27 ITEM 480 EXPEDITED SERVICE

1       **ITEM 65           EQUIPMENT FURNISHED FOR LOADING.**

2  
3       Except as otherwise provided, where a carrier's individual tender rates apply on specific types of  
4       equipment, the carrier shall be responsible for furnishing it. If equipment other than that specified  
5       in the individual tender is provided to load a shipment, it shall be furnished at the carrier's own  
6       convenience and without any additional cost to the Government.  
7

8       **ITEM 70           METRIC CONVERSION.**

9  
10       The weights and measurements expressed in this tender are being changed to indicate only metric  
11       measurements. This change will be accomplished in the four steps (paragraphs A through D)  
12       shown below:  
13

- 14       A.       First step. In the 1992 edition of the GSA National Rules Tender No. 100-B, the appropriate  
15       weight or measurement (inches, feet, miles, or pounds) will be first expressed after which the  
16       metric equivalent (centimeters, meters, kilometers, or kilograms) will be parenthetically shown.  
17  
18       B.       Second step. In the 1993 edition of this document (GSA No. 100-C), the exact opposite  
19       is shown, i.e., first the appropriate centimeters, meters, kilometers or kilograms is  
20       indicated after which the customary weight or measurement (inches, feet, miles, or pounds)  
21       is parenthetically shown. The metric conversion in this step does not require tenders  
22       to be predicated upon metric measurement. Only when the fourth step, below, is implemented,  
23       will carriers be required to submit their tender filings based upon metric measurement.  
24  
25       C.       The third step in implementing the conversion will be to round the metric weights and  
26       measurements expressed in paragraph B to a whole number and, in turn, to translate the  
27       "whole" metric number to equivalent U.S. weights and measurements. (In some instances, the  
28       conversion process may result in mixed numbers, i.e., a number containing a whole number  
29       and a fraction.) The implementation date and process to be used in this step, as well as the  
30       implementation date of paragraph D below, has not yet been determined; however, there will  
31       be sufficient advance notice given to the carrier industry prior to the implementation of  
32       paragraph C and D.  
33  
34       D.       The fourth and final step of the conversion process will be to display only the metric system  
35       of measurement (eliminating the customary U.S. weight and measurement in parenthesis).  
36

37       Please see APPENDIX D in the VA TOS No. VA-1 for the Metric Conversion Table.

38  
39       **ITEM 75           SERVICES NOT OTHERWISE SPECIFIED**

40  
41       When a carrier performs services that are required for normal movement of freight shipments and  
42       such services are not identified in the VA RULES TENDER No. VA-100, the charges for these  
43       services will be negotiated between the VA activity and the carrier.
