

Do You???

- Have concerns about conservation and our environment?
- Believe that conservation decisions should be made by you and your neighbors?
- Believe people can accomplish their goals by working together?
- Believe in a balanced economic growth that provides jobs and preserves our precious natural and human resources?

Partnership Alliance Program

Make it Happen!

These are very exciting times for the RC&D Organization. The National Association of Resource Conservation and Development Councils has begun an aggressive campaign to provide independent resources.

We would like to begin to work toward building a fund which would eventually support the National office and provide awards and seed money for projects.

The first goal is to make the National office self supporting. We are actively seeking corporate sponsorship and that means being able to show that we are supported by our members!

Help choose our path!

Help us to meet our Challenge!

**RC&D—
Serving our communities!**

Your individual support is a major and significant part of this effort. It also sends a strong message that you support the great work that our councils are doing across the country.

The National office continuously brings our message to Congress and the Administration. In order to do this and to provide other services such as conferences, the Catalyst, monthly mailings, forums, training/workshops, websites, the listserv, the Grant Resource Center, Award programs, and general day to day information as needed by our councils,

WE NEED YOUR SUPPORT!
