

Summary Report of Occurrences Reviewed

From June 30 – July 7, 2006

Summary: 21 occurrences at 11 sites reviewed during this period.

Significant Occurrences (1)

Near Misses – 1 occurrence at 1 site

- **SC – Brookhaven National Laboratory (Significance Category 3).** On June 21, 2006, a wheeled computer server rack, weighing approximately 600 pounds, fell from the tailgate of a box truck causing a employee who was attempting to secure the rack inside the truck to be knocked to the ground. The rack fell on his right leg, pinning him to the ground. The employee was assisted by two other workers, went to the site medical facility for treatment of a minor leg bruise, and was released.

Other Occurrences (20). See Table (Note: The Table includes the occurrences listed above).
