

**Vermont Apple IPM Alert**  
**Lorraine P. Berkett**  
**April 21, 2008**

**Stage of Bud:** Half-Inch Green (McIntosh at UVM HRC)

Just a quick reminder that we are tracking apple bud development at 4 locations around the state along with degree day accumulation to help anticipate arthropod stages and apple scab ascospore maturity. You can find these at: <http://orchard.uvm.edu/> . Also, some pictures from the Tri-State Twilight Meeting which was held on April 16th have been posted and linked to the website.

On the OrganicA Project website, we are posting "Orchard Observations" on a weekly basis at: <http://www.uvm.edu/~organica/ListserveBlogs/listservesblogs.html>
