7463 '03 JUL 21 A9 Docket No. 03E-0261

The Honorable James E. Rogan
Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office
Box Pat. Ext.
P.O. Box 1450
Alexandria, VA 22313-1450

JUL

Dear Director Rogan:

This is in regard to the application for patent term extension for U.S. Patent No. 5,658,590, filed by Eli Lilly & Company under 35 U.S.C. § 156. The human drug product claimed by the patent is Strattera (atomoxetine hydrochloride), which was assigned NDA No. 21-411.

A review of the Food and Drug Administration's official records indicates that this product was subject to a regulatory review period before its commercial marketing or use, as required under 35 U.S.C. § 156(a)(4). Our records also indicate that it represents the first permitted commercial marketing or use of the product, as defined under 35 U.S.C. § 156(f)(1), and interpreted by the courts in *Glaxo Operations UK Ltd. v. Quigg*, 706 F. Supp. 1224 (E.D. Va. 1989), *aff*^{*}d, 894 F. 2d 392 (Fed. Cir. 1990).

The NDA was approved on November 26, 2002, which makes the submission of the patent term extension application on January 23, 2003, timely within the meaning of 35 U.S.C. § 156(d)(1).

Should you conclude that the subject patent is eligible for patent term extension, please advise us accordingly. As required by 35 U.S.C. § 156(d)(2)(A) we will then determine the applicable regulatory review period, publish the determination in the *Federal Register*, and notify you of our determination.

Please let me know if we can be of further assistance.

Sincerely yours,

alle

Jane A. Axelrad / Associate Director for Policy Center for Drug Evaluation and Research
