E.16 ENDNOTES
As of June 30, 2000

1/ Data on country exposure of U.S. banking organizations are reported on the Country Exposure Report (FFIEC 009). All data are on a fully consolidated basis and cover 100 U.S. banking organizations. Respondents may file information on a bank only or consolidated bank holding company basis. As most respondents file on a bank only basis, for the purpose of this report, respondent banking organizations are generally referred to as banks.

Currently, six organizations comprise the group of Money Center Banks, and five organizations comprise the category of Other Large Banks. The Money Center Banks category includes data from the following banking organizations: Bank of America Corp., Bank One Corp., Taunus Corp., Chase Manhattan, Citigroup, and J.P. Morgan. The Other Large Banks category includes data from: Bank of New York Co., First Union Corp., FleetBoston Financial Corp., HSBC Holdings PLC, and State Street Corp.

Information about the Tier 1 capital and total assets of the categories of reporting banking organizations follows. Fluctuations in total asset data are attributable in part to the inclusion of assets of respondents that have changed their basis of reporting from bank only to fully consolidated bank holding company, or to merger and acquisition activity.

As of June 30, 2000

Banking Organization Category	Tier 1 Capital	Total Assets
All Reporting Banks	\$ 313.1 billion	\$ 4,436.4 billion
Money Center Banks	\$ 151.2 billion	\$ 2,476.9 billion
Other Large Banks	\$ 48.6 billion	\$ 653.6 billion
All Other Banks	\$ 113.3 billion	\$ 1,305.9 billion

2/ Local country claims are claims, including revaluation gains on foreign exchange and derivative products, held by U.S. banks in their foreign offices on residents of the country in which the office is located. Local country liabilities are liabilities, including revaluation losses on foreign exchange and derivative products, to third parties held by U.S. banks in their foreign offices and payable only in those offices. Net local country claims are equal to local country claims less local country liabilities. Local country claims and liabilities may be denominated in the local currency or another currency. In instances where the net local country claim is negative, the value is set to zero in computing Column D of Table I. For this reason, the amount reported in Table I, Column D does not necessarily equal the difference between the last two columns of Table III.

3/ The cross-border claims data in all columns of Table II, and the first seven columns of Table III, cover only cross-border, non-local country claims. These result from a U.S. bank's office in one country lending to residents of another country. The data do not include revaluation gains on foreign exchange and derivative products.

4/ These columns show the claims held by U.S. banks on borrowers residing in the reported country that are guaranteed by residents of other countries.

5/ Claims held by U.S. banks on a branch in the reported country, where the head office of the borrowing bank is outside the reported country, are treated as being guaranteed and are included in this column.

6/ These columns show the claims held by U.S. banks on borrowers residing in other countries that are guaranteed by residents of the reported country. The guarantor can be a bank, a government entity, or a private non-bank entity.

7/ Includes amounts borrowed by the foreign branches of banks headquartered in the reported country. Also includes guarantees and similar instruments issued by the reported country's banks that cover repayment of borrowing by non-residents.

8/ Revaluation gains on foreign exchange and derivative products after netting, adjustments for guarantees, and external borrowings.
