Wellsfargo not only deprived myself and family of our home,many others also have been a victim of there intentional,outrageous,extreme placements with use of there power, Laws set to protect do-not because no one is willing to help. To date I continue to look for some-one to help, from many Attorneys when this began, all denied assist. I have documents, payment history, names, faxes, dates many not only will prove fraud was committed but the run-arounds all the way to us being homeless. The denial of due process is said to be a right. Senate , Council,President, Attorney Generals-----no-one Why?

How can I be heard? I will continue to look for answers,please assist any way willing. I look forward to your response please.

Thank-You
