Ref. No. 01-HFD-310I-078

Mr. Roschach Martin
RFL
10 Vanessa Crescent
Mulgrave, Victoria 3180
AU

Dear Mr. Martin:

This is to advise you that the Food and Drug Administration (FDA) has reviewed your web site at the Internet address: <http://REACH-FOR-LIFE.COM> and has determined that the products, "Colloidal Silver", "Oxygen Plus" (Oxygen + colloidal silver), "Oral Chelate", "Energy Food For Joints", and other products being offered, are promoted for conditions that may cause them to be drugs under section 201(g) of the Federal Food, Drug, and Cosmetic Act (the Act) [21 USC 321(g)]. The products may be considered drugs because the therapeutic claims as shown on your web site establish their intended use as drugs.

Examples of some of the products and claims observed on your web site include, in part:

Colloidal Silver **"HIV, AIDS AND COLLOIDAL SILVER**.... "The small glass vial is filled with a clear liquid resembling water. But an Orem resident is convinced it contains the cure for AIDS." "Tichy has determined that the solution will kill the AIDS virus without harming the human body." "Nature's Alternative to Antibiotics"..... "He noted that many of these antibiotics were ineffective against a number of harmful bacteria, including the biggest killer in burn cases – greenish blue bacterium called Pseudomonas aeruginosa. Extensive trials proved silver to be the most effective and is currently used in all major burn centres [sic] in the United States." Testimonial statements found on your web site demonstrate the intended use of colloidal silver as a drug treatment for AIDS, and as an effective antibiotic against a number of harmful bacteria.

STABILIZED OXYGEN with COLLOIDAL SILVER "Based on colloidal silver's long history as an agent which destroys bacteria, viruses and fungi on contact, we have added 5 ppm. colloidal silver to this product, making STABILIZED OXYGEN with COLLOIDAL SILVER ..."

ORAL CHELATE ...".helps prevent the changes in the blood vessels which result in heart disease, but also alters the biochemistry of the body in such a way that the harmful changes which have already taken place, can be slowly – but surely – REVERSED!" " By-pass operations not needed.."

ENERGY FOOD FOR JOINTS "... that literally cures arthritis for many and markedly reduces the pain and inflammation for nearly everyone."

Furthermore, FDA has no information that your products are generally recognized as safe and effective for the above referenced conditions and therefore, they may also be “new drugs” under section 201(p) of the Act [21 USC 321(p)]. New drugs may not be legally marketed in the U.S. without prior approval from FDA as described in section 505(a) of the Act [21 USC 355(a)]. FDA approves a new drug on the basis of scientific data submitted by a drug sponsor to demonstrate that the drug is safe and effective.

FDA is aware that Internet distributors may not know that the products they offer are regulated as drugs or that these drugs are not in compliance with the law. Many of these products may be legally marketed as dietary supplements or as cosmetics if certain therapeutic claims are removed from the promotional materials and the products otherwise comply with all applicable provisions of the Act and FDA regulations.

Under the Act, as amended by the Dietary Supplement Health and Education Act (DSHEA), dietary supplements may be legally marketed with claims that they are intended to affect the structure or function of the body (structure/function claims) if certain conditions are met. Claims that dietary supplements are intended to prevent, diagnose, mitigate, treat, or cure disease (disease claims) excepting health claims authorized for use by FDA, may not be made as they cause the products to be drugs. The intended use of a product may be established through product labels and labeling, catalogs, brochures, audio and videotapes, Internet sites, or other circumstances surrounding the distribution of the product. FDA has published a Final Rule intended to clarify the distinction between statements allowed as structure/function claims and those that represent disease claims. This document is available on the Internet at <http://vm.cfsan.fda.gov/~lrd/fr000106.html>.

In addition, only products that are intended for ingestion may be lawfully marketed as dietary supplements. Topical products and products intended to enter into the body directly through the skin or mucosal tissues, such as transdermal or sublingual products, are not dietary supplements. For these products, disease or structure/function claims may cause them to be new drugs.

Additional information is available in Title 21, Code of Federal Regulations, (21 CFR) Parts 310 and 330-358. These parts include the Final Rules for various OTC ingredients or products that may or may not be legally marketed without prior approval.

Furthermore, your Internet site may be subject to statutes enforced by the Federal Trade Commission (FTC). Sections 5 and 12 of the Federal Trade Commission Act, 15 U.S.C. Sections 45 and 52. You are encouraged to consult the FTC Web site at <http://www.ftc.gov/bcp/online/pubs/dietsupp.htm> for further information. The FTC Web site also provides copies of complaints and orders that have been filed by the FTC against companies making misleading or deceptive advertising claims on the Internet. Some of these complaints and orders can be found at <http://www.ftc.gov/opa/2000/06/lanelabs.htm>, <http://www.ftc.gov/opa/2000/04/cure-all2.htm> and <http://www.ftc.gov/opa/1999/9906/opcureall.htm>. You may want to review your advertisement in light of these standards. Related questions should be directed to the FTC at (202) 326-3090.

This letter is not intended to be an all-inclusive review of your web site and products your firm may market. It is your responsibility to ensure that all products marketed by your firm are in compliance with the statutes administered by both the FDA and FTC.

If you need additional information or have questions concerning any products distributed through your web site, please contact FDA. You may reach FDA electronically (e-mail) at TARTM@CDER.FDA.GOV, or you may respond in writing to Ms. Margaret Tart, Compliance Officer, Food and Drug Administration, HFD-300, 7520 Standish Place, Rockville, Maryland 20855 or by telephone at (301) 594-0054.

Sincerely yours,

/s/
