### Draft Environmental Impact Statement (EIS) on the Disposal & Reuse of the Savanna Army Depot Activity, Savanna, IL

**AGENCY:** Department of the Army, DoD.

**ACTION:** Notice of availability.

**SUMMARY:** The proposed action evaluated by this Draft Environmental Impact Statement (DEIS) is the disposal of the Savanna Army Depot Activity (SVAD), Savannah, Illinois, in accordance with the Defense Base Closure and Realignment Act of 1990, Public Law 101-510, as amended. The DEIS addresses the environmental consequences of the disposal and subsequent reuse of the Depot's 13,062 acres. Alternatives examined in the DEIS include encumbered disposal of the property, unencumbered disposal of the property, and no action. Encumbered disposal refers to transfer or conveyance of property having restrictions on subsequent use as a result of any army-imposed or legal restraint. Under the no action alternative, the Army would not dispose of property but would maintain it in caretaker status for an indefinite period.

Disposal of the Depot property is the Army's primary action. Reuse of the property is a secondary action that will be taken by others. The EIS also analyzes the potential environmental effects of reuse by means of evaluating intensity-based probable reuse scenarios. Appropriate to the Depot are low, medium-low, and medium intensity reuse scenarios reflecting the range of activities that could occur after disposal of the property.

A scoping meeting was held at the SVAD on June 27, 1996. Public notices requesting input and comments from the public were issued in the regional area surrounding the SVAD.

**DATES:** Written public comments and suggestions received on or before March 24, 1997 will be addressed in the Final Environmental Impact Statement.

**ADDRESSES:** A copy of the Draft EIS may be obtained by writing to Mr. Glen Coffee at the Corps of Engineers, Mobile District (ATTN: CESAM-PD-E), 109 St. Joseph St, Mobile, AL 36628-001, or by facsimile at (334) 690-2424.

Dated: January 30, 1997.
