

President's Council of Advisors on Science and Technology
June 25, 2007
Public Meeting on Nanotechnology

Location: National Science Foundation
4201 Wilson Blvd., Arlington, VA 22203
Room 1235

Agenda

- 9:00 – 9:15 am Introduction
- 9:15 am – 12:00 pm **Applications of nanotechnology:** Panelists from multiple sectors will present examples of nanotechnology-based innovation and commercialization related to a range of products and industries. Each will discuss the opportunities and challenges from their perspective.
- Panelists (15 minute presentations followed by discussion):
- [Michael Holman](#), *Lux Research*
 - [Jim von Ehr](#), *Zyvex*
 - [William Moffitt](#), *Nanosphere*
 - [Lubab Sheet](#), *SEMI*
 - Stephen Maebius, *Foley & Lardner*
- 12:00 – 1:15 pm Lunch
- 1:15 – 4:00 pm **Implications of nanotechnology for health, safety, and the environment:** Panelists from a range of perspectives will describe their activities related to understanding and addressing health and safety issues of nanotechnology and the roles of various stakeholders in managing potential risks of nanotechnology.
- Panelists (15 minute presentations followed by discussion):
- [Sally Tinkle](#), National Institute of Environmental Health Sciences
 - [Gunter Oberdorster](#), *University of Rochester*
 - [Andrew Maynard](#), *Woodrow Wilson Center Project on Emerging Nanotechnology*
 - [Matthew Hull](#), *Luna Innovations*
 - [Michele Ostraat](#), *DuPont*
- 4:00 – 4:30 pm Public Comment
