Slide 1

Going Forward Proposal

- BPA has not released the Long-Term Regional Dialogue Policy and ROD but is hopeful it will be out in April. BPA welcomes ideas on service to public topics but any consensus building discussions will need to be within the context of the Policy and ROD after they are published.
- BPA is working internally to further develop issues that follow the Policy and ROD to help guide future discussions.
- Once the Policy and ROD are published, BPA will hold clarification workshops and present a framework that will look at the service to publics issues as a whole under the published policy.
- In future discussions, BPA will continue to collaborate with customers and the region to work towards consensus building on issues using BPA's Policy as the foundation.

General Timeline for Discussion
