Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purposes of this program are to (1) help address

State-identified needs for highly qualified personnel—in special education, related services, early intervention, and regular education—to work with infants, toddlers and children with disabilities; and (2) ensure that those personnel have the necessary skills and knowledge, derived from practices that have been determined through scientifically based research and experience, to be successful in serving those children.

Priorities: In accordance with 34 CFR 75.105(b)(2)(iv), these priorities are from allowable activities specified in the statute (see sections 662 and 681 of the Individuals with Disabilities Education Act (IDEA)). Each of the absolute priorities announced in this notice corresponds to a separate competition as follows:

Absolute priority	Competition CFDA No.
Preparation of Leadership Personnel	84.325D
Combined Personnel Preparation	84.325K
National Outreach and Technical Assistance Center on Discretionary Awards for Minority Institutions	84.325R
Special Education Preservice Training Improvement Grants	84.325T

Absolute Priorities: For FY 2008 and any subsequent year in which we make awards based on the list of unfunded applications from these competitions, these priorities are absolute priorities. Under 34 CFR 75.105(c)(3), for each competition, we consider only applications that meet the absolute priority for that competition.

The priorities are:

Absolute Priority 1—Preparation of Leadership Personnel (84.325D)

Background

Training of special educators and related services personnel at the highest levels, including both the doctoral and post-doctoral levels, is critical to ensure the continued development and availability of quality services for children with disabilities. Over the last several decades, research has consistently suggested that there is a persistent need for additional special education and related services personnel who have been trained at the doctoral and post-doctoral levels. Such personnel play a critical role in ensuring the availability of, and improving the quality of, services for children with disabilities and their families.

Accordingly, the Department seeks to support programs that provide doctoral,

post-doctoral, and advanced graduate level training that is designed to prepare professionals to work in special education as researchers, teacher educators, administrators, and direct service providers.

Priority

The Preparation of Leadership Personnel priority supports and is limited to projects that train personnel at the preservice doctoral or post-doctoral level in early intervention, special education or related services, and at the advanced graduate level (masters and specialists) in special education administration/supervision. In order to be eligible under this priority, programs must provide training and support for scholars to complete their training within the project period of the grant. Therefore, only the following types of programs of study will meet the requirements of this priority:

1. A major in special education, related services or early intervention at the doctoral or post-doctoral level; and
2. Training at the advanced graduate level (masters and specialists programs) in special education administration/supervision.

Note: Training that leads to a Doctor of Audiology (DAud) degree is not included as part of this priority because training programs that lead to a DAud degree are eligible to apply for funding under the Combined Personnel Preparation priority (CFDA 84.325K) announced elsewhere in this notice.

To be considered for funding under the Preparation of Leadership Personnel absolute priority, applicants must meet the application requirements contained in the priority. All projects funded under the absolute priority also must meet the programmatic and administrative requirements specified in the priority. The application, programmatic, and administrative requirements are as follows:

(a) Demonstrate, in the narrative section of the application under "Quality of Project Services," how—

(1) The program prepares personnel to address the specialized needs of children with disabilities from diverse cultural and language backgrounds, including limited English proficient children with disabilities, by—

(i) Identifying the competencies needed by leadership personnel to understand and work with culturally and linguistically diverse populations (the competencies identified should reflect the current knowledge base); and

(ii) Preparing personnel to use those competencies through early
