FDA Advisory Committee:

my neurologist Dr. Lacomis from
University of Pitt. ^{11 9 56 '99 JUL 30 110 35} Told me that the
medication 3-4 Diaminopridine
was going to be ^{to} excelled. Also my
pharmacist John Yabem Compounding
pharmacy gave me this address so
I can write to you to please do
not stop compounding this
medicine I'm a Lambert-Eaton
Myasthenic Syndrome, Patient
for 4 years. This is the only medication
helps me to ^{stay} out of a wheel chair, I have
blurred vision, weakness in legs I fell
a lot my mouth dries I can't swallow
lost 8 lbs. cause the dry mouth stops

98N-1265

C 5244

the food from going down my throat
I start 6:30 AM taking this
medication every 2 to 3 hours for
5 times a day. I wouldn't be able to
clean or cook dinner or anything.
I'm not the only patient with ^{this} illness
I have a list of 40 people who
take this same medicine

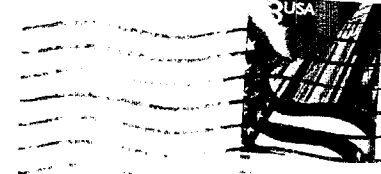

Please Refer to DOCKET # 98-N-0182
List of bulk drugs used in pharmacy
compounding.

Do anything possible to
continue this medication. It cost
\$ 209.25 for month (10 MG.) for 150 cap.

Have a nice
Day.

Thanks you
