Dear Sir or Madam:

RE: Docket No. 98N-1265

My wife is a consumer of a prescription product that is mailed to us from another State. The laboratory/pharmacist are duly licensed and approved by their governing State.

I am very concerned that the above MOU would limit or exclude my wife's obtaining this specific medication which is not available locally. This prescription has been ordered as an alternative for oral medication that had given my wife side effects.

I ask you to amend the form to allow pharmacists to continue to practice as they have successfully done so for years....serving the public with alternative information and filling prescriptions which are compounded as a specialty item.

Sincerely,

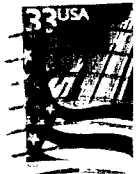

Philip H. Lester, D.C.
