

To Whom It May Concern:

I urge the FDA to do
the following:

9501 '99 JUL 28 AM 12:27

1) In reference to Docket #98N-1038, The FDA should retain current labeling requirements which include: use of the radura symbol on all irradiated foods and a statement like "treated by irradiation." These should be prominently and largely displayed on the front of the package.

2) In reference to U.S District Court for D.C. Docket No. 98-CV-1300 lawsuit which mandates the FDA require labeling and safety testing of all genetically engineered foods. → OVER

92N-0139

C5761

The American public has a right to know, and the FDA has a duty to protect public health. We demand that All G.E. (genetically engineered) foods be LABELED, giving consumers an educated choice. I would very much appreciate a reply, and want to know the outcome of these situations.

Thank You,

Amy Countryman
