

U. S. D. A,

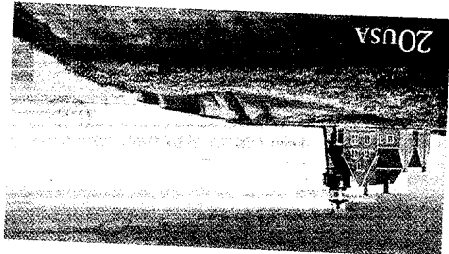

12-26-00

I'm referring to Docket No 98P-0151/CP
to prevent the slaughter of downed animals.
These animals should not be shipped
to the slaughter house, ~~in~~ ⁱⁿ the first place.
I am also sick & tired of being told
to work this out that when preparing the
meat. No dangerous infected meat
should be on the market. Downed
animals are sick and sick meat should
not be on the market. Harold Meyer
