Dockets Branch

re: docket # 98P-0151/CPI

To whom it may concern:

Please put an end to the downed animal trade slaughter. It does pose a risk to human health however even if it didn't I find it barbaric in the way animals are handled for the span of their lives - No matter if they are sick or healthy our country and government needs to be more humane to our fellow feeling creatures of this planet.

Horrified,
Susan Haywood
