

~~Dr. Alice Fisher~~

Dr. Louis Carson:

Here are a few pages of the ~~Statistical Abstract~~ <sup>Statistical Abstract</sup> it will be referring to. When I add up the ~~costs~~ <sup>cost</sup> life-years lost vs the life-years gained in the SE regulations I always find the SE regs will cost more lives than they will save. Why aren't more critical things being done - such as outlawing swimming pools stairs to prevent drownings & falls?

Thanks,

Anthony Kuest

<sup>1</sup> Includes nonnegligent manslaughter. <sup>2</sup> Includes offenses reported by the police at the National Zoo. <sup>3</sup> Complete data were not available; therefore, it was necessary for the crime counts to be estimated for 1995 and 1996.

Source: U.S. Federal Bureau of Investigation, *Crime in the United States*, annual.

The murder rate in Iowa & 5 other states have been about the same each year since 1943. The only areas one can find high murder rates is where there has been a prolonged high illegitimacy rate such as Wash, D.C & other cities.

Excludes "error of closure" for the three months prior to the April 1, 2000. Covers net international migration and movement of Armed Forces. Data reflect movement of Armed Forces due to the Gulf War. Persons of Hispanic origin may be of any race. Reports: P25-1130; and Population Paper Listing 57.

This part shows the tremendous loss of life among black males caused by our welfare system & other things that caused the collapse of family values in the black community. What happened to the black 150 years ago has happened to the much of the blacks today and is hitting the whites now.

1 Represents the portion of a consolidated city that is not within one or more separately incorporated places. The population shown in this table is for the CDP; the 1990 census population for the city and county of Honolulu is 836,231

Source: U.S. Census Bureau. 1900-1990, *Population of the 100 Largest Cities and Other Urban Places in the United States 1790 to 1990*. Working Paper No. 27; 1996, "Estimates of the Population of Cities with Populations of 100,000 and Greater". <http://www.census.gov/population/stimates/metro-city/SC100K96.txt>; published November 1997.

*Why has St. Louis population declined so much?  
 Is it because Dick Gephardt represents them?  
 Can you name a place with a conservative Republican with a high murder rate?*
