

ABBY STITT 9229-132 Village Glen Drive San Diego, California 92123

Dear Dr Henney,

12/22/01

As a member of the Union of Concerned Scientists I urge you to ban the use of human antibiotics to make livestock grow faster. It is appalling that healthy animals are given these antibiotics by their owners ^{thus creating} resistant strains of salmonella and other food-borne bacteria.

Follow the lead of the European Union and the World Health Organization to rapidly phase out the use of anti-microbials if they are also used to treat humans.

The nation's health is at stake.

Best of luck in the new year.

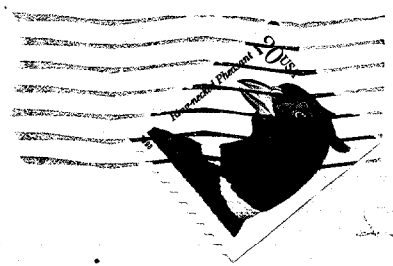

Abby Stitt, RN, MA.
