Dear Dr. Henney, I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211\CP1  All GE foods should be labeled so I am informed and have a choice.	20¢ stamp please Commissioner Jane Henney
GE foods should not be assumed to be "generally recognized as safe" and Should have mandatory pre-market safety testing.  There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.
