RE: Docket No. ODP-0586-CP2

Dear Jennie:

Please cast my vote of petition AGAINST
the future use of Genetically Engineered
(GE) & Milk Protein Concentrate (MPC)
dried ultra filtered milk products.

This creates health risks and unfair inter-
national imported milk products that
are both questionable and NOT safe
in our American food!

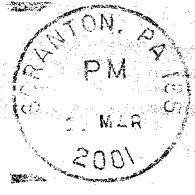

00P-0586

With Mad-Cow & Hoof-N-Mouth Disease - you
should NOT even consider these products
entering American Consumers Markets here.

Thank you for considering my request. C 10
Sincerely,
Thomas F. Hall,
