I have chosen to send this letter to you from a letter-writing service. I chose it because it represents my views and opinions perfectly. It is, however, signed by me as an individual, and I hope you will consider it as such.

Dear Commissioner Henney:

The abuse of antibiotics on a large scale in agriculture is rendering them useless for human disease, a matter which touches the life of every American. As such, I demand that our FDA take swift action to put a halt to this irresponsible and dangerous practice.

Sincerely yours,

Bernadette M. Sonefeld
