

3-10-01

Mr. Friedman:

I ^{5 20 5 01 APR 19 04 45} respectfully write you
as Commissioner of the Food
and Drug Administration.

Short & sweet: Stop
requiring cruel and obsolete
animal tests for pharma-
ceuticals. Allow companies
to substitute 'in vitro' tests
for the safety of both
humans and animals. This
is, after all, 2001. Right?

Sincerely,

Sistine Callen
