## Summary Ratios

The Summary Ratios page provides a brief overview of the financial condition and performance of a bank holding company based on key financial ratios in the following areas: earnings and profitability, asset quality, liquidity and funding, capitalization, growth, and parent company condition. In addition, this report page presents the dollar amounts of year-to-date average assets, net income, and the number of companies in the BHC's peer group. (Note: Headers on the top left corner of this page and subsequent BHCPR pages present the BHC's name, identification number, city and state, Federal Reserve District number, peer group number, and total assets. An asterisk that appears by the current quarter date indicates that the BHC has engaged in a business combination(s) accounted for by the purchase method of accounting.)
