Instructions for implementing the DRVS 7.1.1 e-Submit Patch

The DRVS 7.1.1 (e-submit patch) corrects an issue in the original release of DRVS 7.1 that causes the following critical error when states try to submit their validation results to ETA:

Department of Labor		×
8	An unhandled exception has occurred in your application. If you click Continue, the application will ignore this error and attempt to continue. If you click Quit, the application will be shut down immediately.	
	File or assembly name Interop.ADODB, or one of its dependencies, was not found.	
<u> </u>		

To implement the patch, copy files in DRVS_7.1.1.zip must be copied into C:\Program Files\DRVS\WIAnLX\bin through the following steps:

1. Download the DRVS_7.1.1.zip file from ETA's website (http://www.doleta.gov/performance/reporting/tools_datavalidation.cfm).

2. Double-click the zip file and extract the 3 WIAnLX files into the C:\Program Files\DRVS\WIAnLX\bin folder. Click "Yes to all" if asked whether you want to replace already existing files in that folder.
