Explanation of the Forecasted
Temperature and Humidity Chart
The top table for each PSA shows the
forecasted maximum temperatures (Tx)
for the next 7 days along with the
minimum temperature (Tn) for the next
2 mornings.
The historical PSA "average Tx" has
been calculated for each week and is
shown for reference. (May-Oct)
The bottom table for each PSA shows
the forecasted minimum humidity (Hn)
for the next 7 days along with the
maximum humidity (Hx) for the next 2
mornings.
The historical PSA "average Hn" has
been calculated for each week and is
shown for reference.
The daily PSA average Tx and Hn are
color coded as follows:

Maximum Temperature (Tx)

| cool | $>1$ S.D. below the average |
| :---: | :---: |
| normal | within $\pm 1$ S.D. of the average |
| warm | $>1$ S.D. above the average |
