

Office of Scientific and Technical Information U.S. Department of Energy

Building Knowledge Assets for the Advancement of Science

<http://www.osti.gov/pubscience/>

Providing access to a growing collection of
Scientific and Technical Publishers and Journal Literature

[About](#) | [What's New](#) | [SEARCH](#) | [Help](#) | [Comments](#) | [Collections](#) | [Related Links](#)

PubSCIENCE provides users the capability to search across a large compendium of peer reviewed journal literature with a focus on the physical sciences and other disciplines of concern to the Department of Energy (DOE).

PubSCIENCE is another service developed by DOE's Office of Scientific and Technical Information and made available to the American public in partnership with the U.S. Government Printing Office (GPO). Also visit the **DOE Information Bridge** for full-text DOE Report literature and the **PrePrint Network** for a "one-stop shopping" site for preprints in science and technology. **PubSCIENCE** is a component of **EnergyFiles Virtual Library of Energy Science and Technology**.
