Introductory Comments for Attachment L-9 Contractor Owned Property Available For Purchase from the Incumbent Contractor

This listing identifies Contractor-Owned Property Available For Purchase From the Incumbent Contractor.

It is the Government's expectation that the property listed will be necessary in the performance of the MESC contract.

It is further anticipated that the property made available by the incumbent will be functional and have remaining useful life. The successful offeror will be afforded an opportunity to examine the equipment after award and prior to the performance period. In the event that any of the equipment to be purchased by the MESC contractor is unacceptable or otherwise incapable of performing the requirements of this contract, the successful offeror may request an adjustment to the NEC for costs associated with replacing equipment determined to be inoperable, by both parties, as long as the costs associated are deemed reasonable, allowable, and allocable.
