

At WFF, at present these services are not being performed at WFF, however it is an area of service/capability desired by the Government. The contractor shall include in their proposal what services (Canine (K-9) Explosive/Patrol) they deem appropriate for implementation at WFF for the efficient and effective use of these assets. The contractor then shall provide services as determined by the TOM.

At WFF, the contractor shall provide, at a minimum, sufficient full-time, qualified, trained and certified explosives detection services, including the use of dogs and handlers. The contractor shall schedule the teams' presence on Center for duty in a manner that will assure the most expeditious and efficient level of security against explosive-related criminal or terrorist threats or emergencies at the Center. The Contractor shall schedule and provide adequate explosive detection services to meet the following requirements: 1) searches of all packages and bulk delivery inspections at the Central Delivery Warehouse, ensuring that least one team is present during its hours of operation, that are not run through x-ray machines and of such packages and bulk delivery items that are run through the x-ray machine and are discovered to include suspicious materials; 2) vehicle inspection searches at the Center's gates to be carried out as randomly scheduled through the established algorithm and approved by the TOM, as well as 3) ensuring availability for response to emergency and/or unscheduled incidents on Center wherein explosive detection services would be necessary, used, or of assistance. "Emergency" and incident support shall take precedence over routine, random inspections, 4) supporting daily operational and launch requirements. Teams shall be able to work independent of, but in support of, other uniformed operations described herein, with the ability to direct WFF-coordinated uniformed operations using these services.

At WFF, certification and training of explosive detection teams shall be by a nationally recognized K9 training organization or association, which meets or exceeds the following specifications: Dogs shall be certified to at least a 90% "find rate" for black powders, smokeless powders, water gels, primer cords, TNT, RDX, TATP, HMTD, nitrates, and chlorates in buildings, open areas, vehicles (including sedans, vans, trucks, etc.), and baggage (packages, briefcases, purses, and the like).

At WFF, all training aids shall be provided by the contractor. NASA will provide a building for storage of up to a total of 30 pounds of explosives. If explosives are stored on Center, the contractor shall provide an ATF approved magazine equivalent to the Armag Type 2 Class ABC Interior Storage Magazine.

At WFF, additionally, the Contractor shall provide appropriate vehicles/transportation to ensure that the teams can respond to calls and incidents in a timely manner. The contractor shall be completely responsible for any training, care, housing/kenneling, maintenance, and veterinary services/requirements of the animals in order to establish and maintain the level of performance required to maintain their certifications.

5.2.1.1 Criminal Incident Reports/Records

- A. The contractor shall provide complete reports on criminal incidents reported. Maintain records of crime and criminal information in accordance with applicable Federal law and NASA regulations.

5.2.1.2 Testify in Court/Other Official Hearings
