Stuart Davis, President
National States Geographic Information Council
2105 Laurel Bush Road, Suite 200
Bel Air, MD 21015

September 24, 2007

Dear Mr. Davis:

I am pleased to inform you that the Kansas Geographic Information Systems Policy Board, at its September 21st, 2007 meeting, endorsed the National States Geographic Information Council's "Imagery for the Nation" initiative. Kansas has a long and successful history of sharing geographic information and imagery at all levels of government, as well as with private sector partners and its citizens. The Policy Board understands the value of minimizing costs to taxpayers, while taking advantage of the many and valuable uses statewide imagery offers.

The Kansas Policy Board is aware of NSGIC's "Imagery for the Nation" initiative to systematically acquire orthophotographic imagery in a planned and efficient manner across the states, and looks forward to working with them and federal agencies in achieving these goals.

A copy of the Policy Board's endorsement is attached to this letter.

Respectfully,

Ivan L. Weichert, GIS Director
