Ryan P. Lanclos
Geographic Information Officer

August 22, 2006

Mr. Anthony Spicci, President
National States Geographic Information Council
2105 Laurel Bush Road, Suite 200
Bel Air, Maryland 21015

Mr. Spicci:

I am happy to inform you that the Missouri GIS Advisory Council (MGISAC) has approved an endorsement for the National States Geographic Information Council's initiative titled Imagery for the Nation. The council recognizes that this initiative will not only benefit the state of Missouri, but the entire nation, establishing an imagery program that plans for the future.

The MGISAC believes the program is an excellent starting point for a sustainable imagery program, but would like to see the entire state of Missouri included in the one foot acquisition cycle. Imagery is a key component of most local, state and federal geospatial activities in Missouri and builds a solid foundation for these partners to provide better service for our citizens. We look forward to helping make this initiative a reality.

Best Wishes,

A handwritten signature in black ink, appearing to read "Ryan Lanclos".
