

**Responses to Questions/Comments #3 Submitted from Solicitation
NNA08225910R
10-28-08**

Question/Comment 1:

What volume do contractors place their terms, conditions & other related matters (such items as 52.227-14/52.227-15 identifications of background technical data to be delivered to NASA with other Unlimited Rights; Response to L.20 and DCMA/DCAA data, ect.)?

Answer: That information can go in Volume II (Past Performance) behind the past performance information.

Question/Comment 2:

Also, since there are no instructions for completed Reps & Certs, we are assuming that a request for completed Reps & Certs will come from the Contracting Officer if selected for award.

Answer: Please see K.4 52.204-8(c) of the solicitation which addresses the completion of the annual representations and certifications electronically via the Online Representations and Certifications Application (ORCA) website at <http://orca.bpn.gov>.

Question/Comment 3:

We are also assuming that, if selected for award, a final copy of the IDIQ contract would be presented to contractors for execution at that time.

Answer: That is correct.

Question/Comment 4:

Where in the proposal would we place the Safety & Health Plan?

Answer: The Safety & Health Plan can also be attached to the back of Volume II (Past Performance).
