USDA Rural Development was established under the authority of the Department of Agriculture Reorganization Act of 1994. The mission

USDA Rural Development meets these goals by investing financial resources and providing technical assistance to cooperatives and other businesses located in rural communities and establishing strategic alliances and partnerships that leverage public, private, and cooperative resources to create jobs and stimulate rural economic activity.

Project proposals must be designed to overcome currently identified economic problems and lead to sustainable economic development. Project proposals that address both traditional and nontraditional business enterprises are encouraged.

USDA Rural Development will use cooperative agreements with the 1890 Institutions to strengthen the capacity of these communities to undertake innovative, comprehensive, citizen-led, and long-term strategies for community and economic development. The cooperative agreements will be for an outreach and development effort to promote Rural Development programs in targeted underserved rural communities and shall include, but not be limited to:

Indirect costs in excess of 10 percent of the direct cost, therefore, will be ineligible for funding. Other funding restrictions are identified in Section III.

VII. Application Review

1. Criteria

Project proposals will be evaluated using the following seven criteria. Each criterion is given the weight value shown with total points equal to 100. The points assigned provide an indication of the relative importance of each section and will be used by the reviewers in evaluating the proposals. Points do not have to be awarded for each criterion. After all proposals have been evaluated, the Administrator may award an additional 10 discretionary points to any proposal to obtain the broadest geographic distribution of the funds, ensure a broad diversity of project proposals, or ensure a broad diversity in the size of the awards.

(a) *Support of Local Community (Up to 10 points)*: This criterion evaluates the support of local government, educational, community, and business groups. Higher points will be awarded for proposals demonstrating broad support from all components of the communities served, particularly cooperative groups. Broad support is demonstrated by tangible contributions,

such as providing volunteers, computers, and transportation or co-sponsoring workshops and conferences. Points will be awarded based on the level of tangible contribution in comparison to the size of the award. Tangible support must be stated in letters from supporting entities.

(b) *Matching Funds/Leveraging (Up to 10 points)*: This criterion evaluates the extent to which the Institution has the capacity to support the project with matching funds and leveraging additional funds and resources from State, private, public, and nonprofit sources to carry out this outreach and development initiative.

A maximum of 10 points will be awarded based upon the amount the proposal exceeds the minimum 25 percent matching requirement. Applicants will be required to provide matching funds or equivalent in-kind funding in support of this project. Evidence of matching funds availability must be provided. Funds or equivalent in-kind funding must be available at the time at which the cooperative agreement is entered. Matching funds points will be awarded as listed below:

>25 percent to 35 percent match—2 points.

>36 percent to 50 percent match—5 points.

>51 percent to 75 percent match—7 points.

>75 percent match—10 points.

(c) *Economic Need of Community (Up to 15 points)*: This criterion evaluates the economic need of the targeted communities.

Five points will automatically be awarded to project proposals with at least one of the beneficiary communities located in a targeted community(s): Federally designated Empowerment Zones, Enterprise Communities, Champion Communities, Federally-recognized Indian Reservations, and other Federally declared economically depressed or disaster areas. The application must state the name(s) and location(s) of the economically depressed community(s) and the type(s) of targeted community designation (i.e., Empowerment Zone).

Up to a maximum of 10 additional points may be awarded based upon the applicant's ability to identify and demonstrate other economic factors that would cause these communities to be targeted for special economic and community development, such as, but not limited to, unemployment rates, poverty rates, education levels, and job availability. These and other factors will be evaluated and compared to the respective State rates. An applicant must provide sufficient information for

the panel to properly evaluate and rate this criterion.

(d) *Previous Accomplishments (Up to 10 points)*: This criterion evaluates the applicant's previous accomplishments with this initiative and/or its demonstrative capacity to conduct similar projects.

One point will be awarded to an Institution for each year it has been awarded a cooperative agreement under this program up to a total of 5 years. An applicant must provide evidence of satisfactorily completing the cooperative agreement for each year for which credit is claimed. Applicants with less than 5 recent years of awards in this program may receive up to the maximum 5 points by highlighting the applicant's previous performance in each of the past 5 years on other projects with cooperative and business development and outreach objectives. The applicant should discuss the potential impact of the project upon the targeted underserved rural communities, as well as describing previous similar outreach and development work.

Up to a maximum of 5 additional points may be awarded based upon an applicant's ability to document the positive impact of its project upon the targeted underserved rural communities. Positive entrepreneurial developments should be emphasized. Points will be awarded to applicants who demonstrate that the project's technical assistance resulted in the creation of a business(s) in an economically challenged community or that its educational programs developed or improved upon the professional skills of rural entrepreneurs. The applicant must provide specific information as to the specific businesses created and/or professional educational programs offered.

(e) *Statement of Work (Up to 40 points)*: This criterion evaluates the degree to which the proposed project addresses the major purposes for the 1890 REOD Initiative. Points will be awarded according to the degree to which the Statement of Work reflects innovative strategies for providing technical assistance for business creation in economically challenged rural communities, for educational programs to develop and improve upon the professional skills of rural entrepreneurs, and for outreach and promotion of USDA Rural Development.

Discussion of Announcement

Authority

Section 515 of the Housing Act of 1949 (42 U.S.C. 1485) provides RHS with the authority to provide written notice of the offer of a sale or a request to prepay an RHS loan to interested non-profit organizations and to any appropriate State and local agencies.

Accessing the PIX Web Site

State and Servicing Offices will refer all interested non-profit organizations and public bodies to register for participation in preserving low-income housing by accessing <https://pix.sc.egov.usda.gov>. Once interested non-profit organizations and public bodies register, Office of Rental Housing Preservation (ORHP) will activate their registration by sending an e-mail with their user ID and password. A link that provides instructions for navigating PIX can be found on the Web site listed above.

External Users

Access to the Web site is restricted to non-profit organizations and public bodies. The purpose of PIX purpose is to replace paper listings of interested non-profit organizations and public bodies formerly maintained by Agency staff. PIX will also eliminate the need for program borrowers to notify non-profit organizations and public bodies of the potential sale of their property. Non-profit organizations and public bodies of each prepayment request received by RHS and of the potential sale of RRH properties. Instead non-profit organizations and public bodies can access PIX at anytime in order to identify prepayment requests and potential sales.
