<u>**What's New for DRVS 7.1.1**</u>

1. e-Submit function

When states have tried to e-submit their validation results using DRVS 7.1, they have received the following critical error:
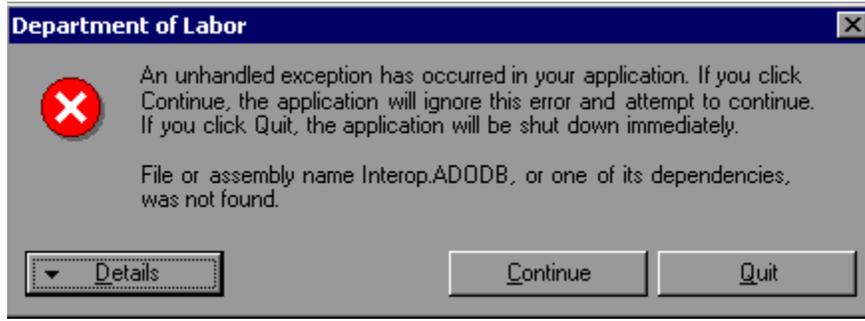

The DRVS 7.1.1 (esubmit patch) fixes this issue.

Please Note that states must complete the DRVS 7.1 upgrade following the instructions listed in "Instructions for Implementing DRVS 7.1" before applying the DRVS 7.1.1 e-submit patch.

2. Negotiated Values Data Entry for Table H.1

The first two data entry cells in the Negotiated Values Data Entry screen for Table H.1 are incorrectly labeled as "Entered Employment Rate" and "Employment Retention Rate." This is a labeling issue only.

The cells actually correspond to the "Placement in Employment or Education" and "Attainment of Degree or Certificate" negotiated values cells on Table H.1 of the ETA9091 annual report.

If you have any questions or need assistance, please contact WIATA@mathematica-mpr.com and cc your regional ETA staff.
