Network, Data and Analysis Center Workshop 2002, Ottawa, Canada

★ Continuous

▲ Once a year

● Twice a year

- 25 Continuous since 1998 (in operation)
- 25 downloaded/processed daily (in operation)
- 6 out of 25 contributed to IGS (in operation)
- 2 out of 6 to become hourly (June)
- Remaining 19 to be approved for releasing (very tough, still hopeful)
- 81 observed once a year (on going) and are getting converted to continuous (to be implemented soon)
- 250 proposed to become continuous 2003+3 (very likely)
- IGS data mirror service and regional analysis center are planned (funds available)
- Most of total 1000 observed twice a year (on going)

+ Proposed 250 Continuous (2003)
