

Mississippi National River and Recreation Area

Mississippi River Trail Guide

Map 5: Mississippi River Gorge

Trail Notes

- 1 On east end of Marshall Avenue Bridge, bicyclists must carry bike up/down set of steps. On west end of bridge, use the sidewalk ramp that circles to the south ending on the West River Parkway Trail.
- 2 If you're on the Ford Parkway Bridge it's easy to miss the west bank trail, and if you're on the west bank trail it's easy to miss the Ford Parkway Bridge. The west bank trail continues under the bridge and into Minnehaha Falls Regional Park. The bridge comes to a five-way intersection with no trail in sight. If you're on the bridge, turn left on 46th Avenue South and you'll come to the trail. If you're on the trail, look for 46th Avenue South near the eastern entrance to Minnehaha Park and follow it north. Turn right at the first stoplight to cross the Ford Bridge.
