### Program Performance in the Past Eight Quarters

### Program Description

Wagner Peyser Act funded programs are an integral part of the One Stop delivery system that provides universal access to an integrated array of services so that workers, job seekers and businesses can find the services they need under one roof in easy-to-find locations. The program focuses on providing a variety of employment related services including but not limited to job search assistance, job referral, and placement assistance for job seekers, re-employment services to unemployment insurance claimants, and recruitment services to employers with job openings. Services are delivered in one of three modes including self-service, facilitated self-help services and staff assisted service delivery approaches. Depending on the needs of the job seeker, referral to training may be available.

### Program Innovations

The Department is hoping to fund a contractor to review the effects of the co-enrollment policy on the Wagner-Peyser program. Additionally, the Department wants to define an appropriate outcome-based efficiency measure for the job training programs by September 2008. ETA will develop, adopt and implement the new efficiency measures by June 2009.
