

## **Table of Contents**

Introduction.....	1
Overview.....	1
Summary.....	1
Background.....	3
Definition of diaper dermatitis.....	3
Etiologic factors.....	3
Diagnostic criteria.....	5
Clinical Practice.....	5
Laboratory Tests.....	5
PEDIASSTAT™.....	6
Product Indication.....	6
Product Description and Dosing.....	6
Efficacy.....	7
Overview of clinical program.....	7
Study Design.....	7
Subject Selection.....	7
Efficacy Criteria.....	7
Evaluation of Rash Site.....	8
Overall Rating.....	8
Global Clinical Impression.....	8
Microbiological Evaluations.....	8
Demographics.....	9
Efficacy Results by Protocol.....	9
Efficacy Conclusions.....	15

Safety .....	16
Overall Safety Summary.....	16
Dermal testing.....	16
Adverse Experiences in the Clinical Trials.....	17
Systemic Exposure.....	17
Other Miconazole Formulations .....	18
Marketing History.....	19
Marketing Experience in Other Countries .....	19
Microbiology.....	20
Mechanism of Action.....	20
Activity .....	20
Resistance .....	20
Diaper Dermatitis – Clinical Practice .....	22
Clinical Criteria.....	22
Laboratory Criteria.....	22
Culture and the Choice of Treatment.....	23
Survey of Pediatricians for their Standard of Care in Diaper Dermatitis. ....	24
The Case for PEDIASSTAT™.....	27
Conclusions.....	28
Appendix A – Tables .....	30
Appendix B – Reference Letters.....	34
Appendix C – Bibliography.....	35

## **Figures**

*Graphs are numbered according to their corresponding tables.*

- FIGURE 1A. MEAN TOTAL RASH SCORES FROM USA STUDY**
- FIGURE 1B. MEAN TOTAL RASH SCORES FROM STUDY AUSTRALIA-A**
- FIGURE 1C. MEAN TOTAL RASH SCORES FROM STUDY AUSTRALIA-B**
- FIGURE 2A. MEAN TOTAL RASH SCORES IN THE PRESENCE OF CANDIDA ALBICANS AT THE INFLAMED RASH SITE AT BASELINE (EVALUABLE SUBJECTS) STUDY USA**
- FIGURE 2B. MEAN TOTAL RASH SCORES IN THE PRESENCE OF CANDIDA ALBICANS AT THE INFLAMED RASH SITE AT BASELINE (EVALUABLE SUBJECTS) AUSTRALIA-A**
- FIGURE 3. GLOBAL CLINICAL IMPRESSION – PERCENT OF SUBJECTS WITH MILD OR NO DIAPER DERMATITIS**
- FIGURE 5. CRITERIA USED BY PEDIATRICIANS TO DETERMINE TREATMENT FOR DIAPER DERMATITIS**

## **Tables**

*Tables are numbered according to their corresponding graphs.*

- TABLE 1. TOTAL RASH SCORES (EVALUABLE SUBJECTS) BY STUDY**
- TABLE 2. TOTAL RASH SCORES IN THE PRESENCE OF CANDIDA ALBICANS AT THE INFLAMED RASH SITE AT BASELINE (EVALUABLE SUBJECTS)**
- TABLE 3. GLOBAL CLINICAL IMPRESSION NUMBER OF SUBJECTS WITH MILD OR NO DIAPER DERMATITIS (STUDIES AUSTRALIA A&B)**
- TABLE 4. ADVERSE EXPERIENCES IN PHASE III EFFICACY STUDIES**
- TABLE 5. CRITERIA USED TO DETERMINE CHOICE OF TREATMENT FOR DIAPER DERMATITIS**
- TABLE 6. INFLUENCE OF FINDING PSEUDOHYPHAE ON CHOICE OF TREATMENT**
