■ U.S. ■ S. America ■ China ■ Others

\*S. America = Argentina, Brazil & Paraguay

Despite higher forecast U.S. prices, reduced global competition will enhance U.S. export potential. Argentine corn exports will be severely constrained by reduced production in response to shrinking plantings. Economic uncertainty and higher anticipated returns favor soybeans. Meanwhile Brazil has run out of exportable supplies due to expanding domestic use and a corn crop that is expected to be 15% smaller than the previous year's record. Additionally, Hungarian exports are anticipated to contract as production declines. In contrast, expanding production and large carry-in stocks provide China with ample exportable supplies. China will make use of its freight advantage in order to export to Asian markets, such as South Korea and Malaysia.

# SITUATION AND OUTLOOK: COMMENTARY AND CURRENT DATA

## WORLD WHEAT SITUATION AND OUTLOOK

World wheat trade in 2002/03 is forecast to be 105.3 million tons, down 2.2 million tons from 2001/02. Global production is forecast up 10 million tons and consumption up 8.7 million tons from the previous year. Global stocks are forecast to fall by 6.7 million tons to the lowest level since 1996/97.

In early June, export quotes for #2 HRW FOB Gulf averaged \$130/MT, up \$8 from last month. Global production is down 6 million tons from last month with lower crops in the United States, Australia, China, and Eastern Europe only partially offset by larger expected crops in the EU and Morocco. Global consumption is forecast nearly identical to last month, while ending stocks are forecast down 6.4 million tons. Global wheat trade in 2002/03 is forecast down slightly. Fewer exports by Australia, Hungary and Syria are countered by more U.S. and EU exports.

EU imports for 2001/02 were raised to a record 9 million tons. However, market conditions created by a short crop are forecast to turn around in 2002/03 causing EU imports to drop dramatically to traditional levels. Exports in 2001/02 from the major EU suppliers, Russia and the Ukraine were raised.

EU Imports Soar in 2001/02

### 2002/2003 Trade Changes

#### Selected Exporters

- **Australia** down 1 million tons to 17 million due to lower expected production.
- **EU** exports up 500,000 tons to 12.5 million due to large exportable supplies and lower

---

expected export competition.

- **Hungary** down 200,000 tons to 1.3 million based on decreased crop prospects.
- **Syria** down 200,000 tons to 800,000 due to a smaller expected crop.
- **United States** up 500,000 tons to 24.5 due to less forecast competition from Australia.

### Selected Importers

- **Iraq** down 300,000 tons to 3 million.
- **Morocco** down 300,000 tons to 3 million based on higher production.

### 2001/2002 Trade Changes

#### Selected Exporters

- **Australia** down 500,000 tons to 17.5 million based on the slow pace of shipments to date.
- **Russia** up 500,000 tons to 3 million due to the recent strong pace of shipments to the EU and Middle East markets.
- **Ukraine** up 500,000 tons to 6 million based on exports to date.

#### Selected Importers

- **EU** up 1 million tons to 9 million as supplies from Eastern Europe and the Former Soviet Union continue to enter Greece, Italy, and Spain.
- **Iraq** down 300,000 tons to 3 million due to lower-than-expected imports to date.
- **Kenya** down 200,000 tons based on the slow pace of imports.

## WORLD RICE SITUATION AND OUTLOOK

Global rice trade for 2002 is projected at 24.6 million tons, an increase of 100,000 tons from last month and down only 200,000 tons from revised 2001. Global ending stocks in 2001/02 are projected to drop 700,000 tons to 125.9 million tons as slightly higher world consumption exceeds declining world production (milled basis).

During the first half of the month, Asian rice price quotes strengthened in part due to the Thai government's increased intervention purchases. Low-priced exports from India continue to pressure global prices. However, since last month's report, export price quotes for Thai 100B strengthened over the past month, increasing \$11 to \$207 per ton, Viet 5% export price quotes have increased \$7 dollars to \$193 per ton. Over the past week, price quotes softened as import demand weakened. Additionally, Vietnam started the harvest of their summer-autumn crop.

Export price quotes for U.S. long grain grade #2/4 percent have also strengthened and are now \$210 (FAS) per ton. Quotes for medium grain #1/4 California rice fell \$5 to \$265 (ex-spout Sacramento) per ton.

### Trade Changes in 2002

#### Selected Exporters

- **Indian** exports up 500,000 tons to 4.5 million due to competitive price schemes.
- **Vietnam** down 250,000 tons to 3.0 million due to smaller exportable supplies and based on export pace to date.
- **EU** down 75,000 tons to 275,000 due to WTO constraints limiting export subsidies.

#### Selected Importers

- **Indonesia** up 250,000 tons to 3.0 million based on the strong pace to date and increased import demand.

## WORLD COARSE GRAINS SITUATION AND OUTLOOK

World coarse grain trade in 2002/03 is projected down approximately 1 million tons from a year earlier to nearly 100.3 million. Global consumption is expected to continue to outpace production, dropping carryout stocks from 166 million tons to 148 million. U.S. corn, China corn, and EU barley and rye are forecast to comprise more than two-thirds of world coarse grain stocks.

Global corn trade is forecast down a mere 900,000 tons in 2002/03 as a result of flat or declining demand in the major Asian markets and rising production in Canada. U.S. exports will benefit from reduced South American competition and increased imports by Mexico.

### 2002/03 Trade Changes

#### Selected Exporters

- **U.S. corn** down 500,000 to 53 million tons as a result of a reduction in anticipated domestic supply.
- **China corn** soars 2 million tons to 6 million based on higher expected demand from key Asian markets and rising U.S. prices.

#### Selected Importers

- **Japan and South Korea corn** each raised 500,000 to 15.5 million and 8.5 million tons respectively as higher use in 2001/02 spills over into 2002/03.

### 2001/02 Trade Changes

#### Selected Exporters

- **China corn** increased 500,000 to 6.5 million tons mostly as a result of significant continuing sales to South Korea.
- **Iraq barley** up from zero to 450,000 tons based on reports of shipments to Jordan.

#### Selected Importers

- **Japan corn** up 700,000 tons to 16 million due to higher than anticipated demand.
- **South Korea corn** raised 500,000 tons to 8.5 million based on stronger than expected purchases.

- 
- **Mexico corn** down 500,000 to 5 million tons resulting from slow shipment pace to date.
  - **Syria barley** up 300,000 to 500,000 tons based on domestic policies that facilitated higher imports and a buildup of government stocks.
  - **Mexico sorghum** up 300,000 to 5 million tons due to continuing strong demand.

Notes:

Trade statistics are on a July/June year for wheat and an October/September year for coarse grains.  
Imports and exports exclude Intra-EU15 trade.

Notes:

Wheat trade year statistics are on July/June years. Barley, corn, sorghum, rye, and oats trade year statistics are on Oct/Sept years. Rice statistics are rough basis; trade year statistics are for subsequent calendar year. Rounding errors in conversion from international units causes some discrepancies with World Board Supply and Demand Estimates.

Notes:

Stocks, exports, and consumption are expressed on a milled basis in marketing years. Trade is on a milled basis in calendar years. "Stocks as a Percent of Consumption" represents the ratio of marketing year ending stocks to total consumption. Trade statistics exclude intra-EU15 trade.

---

## **ENDNOTES TO GRAIN: WORLD MARKETS AND TRADE**

### **REGIONAL TABLES**

- 1) Includes Canada, Mexico, and the United States.
- 2) Includes Central America, the Caribbean, and South America.
- 3) Includes Azores, Cyprus, Iceland, Malta & Gozo, Norway, and Switzerland.
- 4) Includes Albania, Bulgaria, Czech Republic, Hungary, Poland, Romania, Slovakia, and former Yugoslavia.
- 5) Includes Bahrain, Iran, Iraq, Israel, Jordan, Kuwait, Lebanon, Oman, Qatar, Saudi Arabia, Syria, Turkey, United Arab Emirates, and Yemen.
- 6) Includes Algeria, Egypt, Libya, Morocco, and Tunisia.
- 7) Includes all other African countries except North Africa.
- 8) Includes Afghanistan, Bangladesh, Bhutan, India, Nepal, Pakistan, and Sri Lanka.
- 9) Includes all other Asian countries except South Asia.
- 10) Includes Australia, Fiji, New Zealand, and Papua New Guinea.

### **OTHER NOTES**

Unless otherwise stated, stock data are based on an aggregate of differing local marketing years and should not be construed as representing world stock levels at a fixed point in time.

Current and historical data on the European Union in this issue refers to the EU-15.

Consumption statistics reflect total utilization, including food, feed, seed, and differences in marketing year imports and marketing year exports.

This circular was prepared by the Grain and Feed Division, Commodity and Marketing Programs, Foreign Agricultural Service, USDA, Washington DC 20250. Information is gathered from official statistics of foreign governments and other foreign source materials, reports of U.S. agricultural attaches and Foreign Service officers, results of office research, and related information. Further information may be obtained by writing the division or telephoning (202) 720-6219.

Note: The previous report in this series was the Grain: World Markets and Trade Foreign Agricultural Service Circular FG 05-02 May 2002. For further details on world grain production see World Agricultural Production, Foreign Agricultural Service Circular WAP 06-02 June 2000.

This circular is available in its entirety on the World Wide Web via the Foreign Agricultural Service Home Page. The address is:
