Adjustments to the Minimum and Maximum Civil Monetary Penalties for Violations of Federal Railroad Safety Laws or Federal Railroad Administration Safety Regulations

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: To comply with the Federal Civil Penalties Inflation Adjustment Act

of 1990, FRA is adjusting the minimum civil monetary penalty that it will apply when it assesses a civil penalty for a violation of a railroad safety statute or regulation under its authority. FRA is also adjusting its ordinary maximum and aggravated maximum penalties to incorporate the new maximum civil penalty amounts authorized by the Rail Safety Improvement Act of 2008. In particular, FRA is increasing the minimum civil penalty per violation from \$550 to \$650, while the ordinary maximum civil penalty per violation will be increased from \$16,000 to \$25,000 and the aggravated maximum civil penalty per violation where a grossly negligent violation or pattern of repeated violations has created an imminent hazard of death or injury (“grossly negligent violation”) will be increased from \$27,000 to \$100,000.

DATES: This final rule is effective March 2, 2009.

SUPPLEMENTARY INFORMATION: The Federal Civil Penalties Inflation Adjustment Act of 1990 (Inflation Act) requires that an agency adjust by regulation each maximum civil monetary penalty (CMP), or range of minimum and maximum CMPs, within that agency’s jurisdiction by October 23, 1996, and adjust those penalty amounts once every four years thereafter to reflect inflation. Public Law 101–410, 104 Stat. 890, 28 U.S.C. 2461, note, as amended by Section 31001(s)(1) of the Debt Collection Improvement Act of 1996, Public Law 104–134, 110 Stat. 1321–373, April 26, 1996. Congress recognized the important role that CMPs play in deterring violations of Federal laws and regulations and realized that inflation has diminished the impact of these penalties. In the Inflation Act, Congress found a way to counter the effect that inflation has had on the CMPs by having the agencies charged with enforcement responsibility administratively adjust the CMPs.

In 2008, Congress determined that additional measures were necessary to deter violations of Federal laws and regulations that contribute to railroad fatalities, injuries, and hazardous materials releases. See H.R. Rep. No. 110–336, at 1 (2008). As a result, it passed the Rail Safety Improvement Act of 2008, which was signed into law by the President on October 16, 2008. See Public Law 110–432, Division A, 122 Stat. 4848. The Rail Safety Improvement

Act of 2008 authorizes, among other initiatives, increased maximum penalty amounts by revising the language in 49 U.S.C. 21301(a)(2), 21302(a)(2), and 21303(a)(2) to allow for civil penalty assessments up to \$25,000 per violation with penalty assessments up to \$100,000 in instances where grossly negligent violations occur. *Id.* at sec. 302.

FRA is authorized as the delegate of the Secretary of Transportation to enforce the Federal railroad safety statutes and regulations, including the civil penalty provisions at 49 U.S.C. ch. 213. 49 CFR 1.49; 49 U.S.C. ch. 201–213. FRA currently has 29 regulations that contain provisions referencing its authority to impose civil penalties if a person violates any requirement in the pertinent portion of a statute or the Code of Federal Regulations. In this final rule, FRA is amending each of those separate regulatory provisions and the corresponding footnotes in each Schedule of Civil Penalties to raise the minimum CMP to \$650, the ordinary maximum CMP to \$25,000, and the aggravated maximum CMP to \$100,000. Where applicable, FRA is amending the corresponding appendices to those regulatory provisions, which outline FRA enforcement policy. FRA also is amending part 224 by removing the footnote attached to § 224.111 and adding the removed text, as amended, as a footnote to part 224, appendix A.

Calculation of the Inflation Adjustment

Under the Inflation Act, the inflation adjustment is to be calculated by increasing the maximum CMP, or the range of minimum and maximum CMPs, by the percentage that the Consumer Price Index (CPI) for the month of June of the calendar year preceding the adjustment (here, June 2007) exceeds the CPI for the month of June of the last calendar year in which the amount of such penalty was last set or adjusted (here, June 2004 for the minimum CMP of \$550). See 72 FR 51196 (Sept. 6, 2007); 69 FR 62818 (Oct. 28, 2004); 69 FR 30592 (May 28, 2004). The Inflation Act also specifies that the amount of the adjustment must be rounded to the nearest multiple of \$100 for a penalty between \$100 and \$1,000, or to the nearest multiple of \$5,000 for a penalty of more than \$10,000 and less than or equal to \$100,000. The first CMP adjustment may not exceed an increase of ten percent. FRA utilizes Bureau of Labor Statistics data to calculate inflation adjusted CMP amounts.

With the exception of the penalties relating to the hours of service laws (49 U.S.C. ch. 211), the ordinary maximum CMP for a violation of the rail safety

laws and regulations was initially established by the Rail Safety Improvement Act of 1988, which set a \$10,000 limit for a CMP imposed for any ordinary violation, and a \$20,000 limit for grossly negligent conduct that results in an aggravated violation. In 1998, after applying the adjustment calculation in the Inflation Act, FRA determined that the ordinary maximum CMP for any single violation needed to be increased to \$11,000 and that the maximum CMP for aggravated violations needed to be increased to \$22,000. FRA then amended each of its regulations by final rule to reflect the increased CMPs. *See* 63 FR 11618 (March 10, 1998).

The Rail Safety Enforcement and Review Act (RSERA) in 1992 increased the range of the minimum and maximum civil penalties for a violation of the hours of service laws, making these minimum and maximum penalty amounts uniform with those of FRA's other regulatory provisions. Before enactment of RSERA, the penalty was "up to \$1,000 per violation." RSERA increased the minimum civil penalty for an hours of service violation to \$500, the ordinary maximum civil penalty to \$10,000, and the aggravated maximum civil penalty to \$20,000. By applying the same adjustment calculation using the 1992 CPI, the ordinary and aggravated maximum penalties for violations of the hours of service laws were raised to equal those of the other rail safety laws and regulations: \$11,000 and \$22,000.

In 1998, FRA applied the adjustment calculation in the Inflation Act to the minimum CMP and determined that it would not need to be increased. In 2004, FRA determined, by applying the adjustment calculation using the June 2003 CPI, that the minimum CMP should be increased from \$500 to \$550. FRA also determined in 2004 under the same rationale that the aggravated maximum CMP should be increased from \$22,000 to \$27,000. 69 FR 30592 (May 28, 2004). In 2007, FRA applied the inflation adjustment calculation, determined that the ordinary maximum CMP needed to be increased, and amended each of its regulations by final rule to reflect an increase in the ordinary maximum CMP to \$16,000. 72 FR 51194 (Sept. 6, 2007).

Prior to the enactment of the Rail Safety Improvement Act of 2008, FRA was evaluating the need to make inflation adjustments to its CMP amounts under the requirements of the Inflation Act. The Rail Safety Improvement Act of 2008, however, increased the authorized amounts for ordinary maximum CMPs (\$25,000) and aggravated maximum CMPs (\$100,000). The regulations now are being amended

to reflect this change in statutory authority for ordinary maximum and aggravated maximum CMPs, which temporarily alleviates the need to perform inflation adjustment calculations for FRA's ordinary maximum and aggravated maximum CMPs. While the new law increased the authority for maximum penalties, it did not address the minimum CMP amount. Therefore, FRA must calculate whether an inflation adjustment is necessary with respect to the minimum CMP. Applying the inflation adjustment calculation, FRA has determined that the minimum CMP should be increased as the following calculations show.

Calculations To Determine Minimum Civil Monetary Penalty Update for 2008

As required, this year, FRA reevaluated the minimum CMP and concluded that it should be increased to \$650, as the next calculations show. The June 2007 CPI of 624.129 divided by the CPI for June 2004 of 568.2 (since the last update was in 2004) equals an inflation factor of 1.09843; \$550 times 1.09843 equals \$604. The raw inflation adjustment amount of \$54 is rounded to the nearest multiple of 100, which is \$100. The inflation adjusted minimum penalty is \$550 plus \$100, or \$650, *see* appendix, and is applicable to all of the rail safety statutes and regulations. Because this is the second time that the minimum CMP has been adjusted under the Act, the ten-percent cap on the increase does not apply. This new FRA minimum penalty will apply to violations that occur on or after March 2, 2009.

Public Participation

FRA is proceeding to a final rule without providing a notice of proposed rulemaking or an opportunity for public comment. Public comment is unnecessary because, in making these technical amendments to give effect to the new Rail Safety Improvement Act of 2008, FRA is not exercising discretion in a way that could be informed by public comment. As such, notice and comment procedures are "impracticable, unnecessary, or contrary to the public interest" within the meaning of the Administrative Procedure Act, 5 U.S.C. 553(b)(3)(B). Likewise, the adjustments required by the Inflation Act are ministerial acts over which FRA has no discretion, making public comment unnecessary. FRA is issuing these amendments as a final rule applicable to all future rail safety civil penalty cases under its authority to cite for violations that occur on or after the effective date of this final rule.

Regulatory Impact

A. Executive Order 12866 and DOT Regulatory Policies and Procedures

This rule has been evaluated in accordance with existing policies and procedures. It is not considered a significant regulatory action under section 3(f) of Executive Order 12866 and, therefore, was not reviewed by the Office of Management and Budget. This rule is not significant under the Regulatory Policies and Procedures of the Department of Transportation. 44 FR 11034. The cost of complying with existing substantive regulations is not being increased. The rules merely contain a regulatory formulation of FRA's amended statutory authority pursuant to the Rail Safety Improvement Act of 2008 and simply reserve FRA's right to assess a penalty up to \$25,000, or \$100,000 in appropriate circumstances. Additionally, the adjustment of the minimum CMP is a limited ministerial act over which the agency has no discretion. The economic impact of the final rule is minimal to the extent that preparation of a regulatory evaluation is not warranted.

B. Regulatory Flexibility Determination

FRA certifies that this final rule will not have a significant economic impact on a substantial number of small entities. Although this rule will apply to railroads and others that are considered small entities, there is no economic impact on any person who complies with the Federal railroad safety laws and the regulations and orders issued under those laws.

C. Federalism

This final rule will not have a substantial effect on the States, on the relationship between the national government and the States, or the distribution of power and responsibilities among the various levels of government. Thus, in accordance with Executive Order 13132, preparation of a Federalism assessment is not warranted.

D. International Trade Impact Assessment

The Trade Agreement Act of 1979 prohibits Federal agencies from engaging in any standards or related activities that create unnecessary obstacles to the foreign commerce of the United States. Legitimate domestic objectives, such as safety, are not considered unnecessary obstacles. The statute also requires consideration of international standards and where appropriate, that they be the basis for U.S. standards. This rulemaking is

purely domestic in nature and is not expected to affect trade opportunities for U.S. firms doing business overseas or for foreign firms doing business in the United States.

E. Paperwork Reduction Act

There are no new information collection requirements in this final rule.

F. Compliance With the Unfunded Mandates Reform Act of 1995

The final rule issued today will not result in the expenditure, in the aggregate, of \$141,000,000 or more in any one year by State, local, or Indian Tribal governments, or the private sector, and thus preparation of a statement is not required.

G. Environmental Assessment

There are no significant environmental impacts associated with this final rule.

H. Energy Impact

According to definitions set forth in Executive Order 13211, there will be no significant energy action as a result of the issuance of this final rule.

Appendix: "Step-by-Step Calculations To Determine Civil Monetary Penalty Update: 2008"**Step-by-Step Calculations To Determine Civil Monetary Penalty Update: 2008**

These calculations follow U.S. Department of Transportation and Government Accountability Office (GAO), formerly the General Accounting Office, guidance to determine if the minimum civil monetary penalty (CMP) should be updated according to the Inflation Act. (Sources for guidance: (1) GAO attachment to memorandum with subject "Annual Review of Department of Transportation's (DOT) Civil Penalties Inflation Adjustment," dated July 10, 2003; (2) policy paper entitled "Federal Civil Penalties Inflation Adjustment Act of 1990"). Overall, the minimum rises from \$550 to \$650 for 2008, under the Inflation Act.

Minimum CMP

The current minimum CMP is \$550, last updated on May 28, 2004. See 69 FR 30592.

Step 1: Find the Consumer Price Index (CPI). (Bureau of Labor Statistics (BLS), 1967 Base, U.S. City Average).

The CPI for June of the preceding year, i.e., CPI for June 2007 = 624.129.

The CPI for June of the year the CMP was last set or adjusted under the Inflation Act, i.e., CPI for June 2004 = 568.2.

Step 2: Calculate the Cost of Living Adjustment (COLA), or the Inflation Factor.

$COLA = CPI \text{ for June } 2007 = 624.129 = 1.09843, \text{ CPI for June } 2004 = 568.2.$

Step 3: Find the Raw Inflation Adjustment or Inflation Adjustment Before Rounding. Raw Inflation Adjustment = $CMP \times COLA = \$550 \times 1.09843 = \$604.14 \approx \$604.$

Step 4: Round the Raw Inflation Adjustment Amount. Recall that the increase in the CMP is rounded, according to the rounding rules.

Increase = Raw Inflation Adjustment - Original CMP = $\$604 - \$550 = \$54.$

Use the following rounding rule: "If the current unadjusted penalty is greater than \$100 and less than or equal to \$1,000, round the increase to the nearest multiple of \$100." (Federal Civil Penalties Inflation Adjustment Act of 1990, p. 4).

Multiples of \$100 are \$0, \$100, \$200. * * * The nearest multiple of \$100 is therefore \$100. Rounded, the \$54 increase = \$100.

Step 5: Find the Inflation Adjusted Penalty After Rounding.

CMP after rounding = Original CMP + Rounded Increase = $\$550 + \$100 = \$650.$

Step 6: Apply a 10% Ceiling if Necessary.

As the minimum CMP has been adjusted previously according to the Inflation Act, the 10% cap for first-time adjustments does not apply.

Step 7: Determine New Penalty.

The new minimum CMP = \$650.

For 2008, the minimum CMP rises by \$100.

Marine Recreational Fisheries of the United States; National Saltwater Angler Registry Program

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues this final rule to adopt regulations to implement the Magnuson-Stevens Fishery Conservation and Management Act (MSA). The regulations establish a national registry of recreational anglers fishing in the Exclusive Economic Zone (EEZ), for anadromous species in tidal waters or for Continental Shelf fishery resources beyond the EEZ. Persons will not be required to register with NMFS if they are licensed by a state that provides data determined to be sufficient for the agency's needs. The requirement is intended to improve

existing angling effort surveys in order to improve their efficiency, to reduce possible sources of bias and to improve confidence in survey results by anglers and fishery managers.

DATES: This final rule is effective January 29, 2009, except for the amendments to § 600.1405 which are effective January 1, 2010.

Background

In 2004, NMFS contracted with the National Research Council (NRC) of the National Academy of Sciences to review the current marine recreational fishery survey methods used by NMFS and its partners to monitor fishing effort and catch. NMFS asked the NRC to: (1) assess current survey methods for their suitability in monitoring fishing effort and catch in the shoreline, private boat, and for-hire boat recreational fisheries; (2) assess the adequacy of the methods for providing the quality of information needed to support accurate stock assessments and responsible fisheries management decisions; and (3) make recommendations for possible methodological improvements that would ensure more accurate and precise estimates of recreational effort and catch.

The NRC's Ocean Studies Board formed a 10-member committee to conduct the requested review, held a series of five public meetings in 2005 to gather information about the current survey programs in each region, and
