

Mix Breakout Session

- **Session goal: develop findings in two areas**
 - General principles that SMD can use to guide allocation trades after the meeting
 - High level but specific recommendations for mix adjustments (within divisions) where appropriate
- **Products from each Subcommittee**
 - 3 summary charts for plenary session after breakout
 - General Principles
 - Principal Recommendations
 - Issues and Concerns
 - Subcommittee Chair's brief letter describing findings
 - Addressed to Chair of NAC Science Committee Dr. Charles Kennel; copied to Associate Administrator for SMD
 - Emailed by **10 May** to Chair of NAC Science Committee via gregory.j.williams@nasa.gov with copy to CMO christopher.blackerby-1@nasa.gov
