Integrated Acquisition Environment Initiative

egov
My Government. My Terms.

Monthly PMO Update—April 24, 2003

Vision:

A secure business environment that facilitates and supports cost-effective acquisition of goods and services in support of mission performance

IAE Initial Modules:

- Business Partner Network (BPN)-Deploy a single point of registration and validation of supplier data accessed by all agencies
- Federal Procurement Data System—Next Generation—(FPDS-NG)-Implement a central point for consolidated collection and access of statistical and management information related to Government acquisitions.
- eCatalogs—Create an online directory of GWAC and MAC contracts to simplify selection and facilitate leverage of Government buying.
- Intra-government Transactions (IGT)-Transform intra-governmental ordering and billing, reduce payment and collection problems, and enable swift and accurate revenue and expense elimination processes for preparing consolidated financial statements.
- Standard eTransactions– Develop a standard glossary and vocabulary to facilitate exchange of data between and within agencies.

Activities for the Next Month:

- BPN
  - Complete transition to new database
  - Continue analysis of novation process
  - Training for FedTeDS users

- FPDS-NG
  - Begin transition

- eCatalogs
  - Phase in Interagency Contracts directory to obtain agency feedback
  - Continue certification and accreditation for Interagency Contracts Directory
  - Continue comparison of shopping cart and vendor data among government catalog systems

- Standard eTransactions
  - Normalization of transactions/mapping of associated data elements

- Intra-governmental Transactions
  - Launch IGT exchange prototype and conduct testing with Treasury's Intra-governmental Payment and Collection (IPAC) system
  - Implement second version of Federal Registration system (FedReg)

- IAE PMO
  - Add both additional government and contractor staffing support
  - Continue development of acquisition strategy and requirements analysis for message broker/portal
  - Validate actual O&M requirements using detailed cost structure from each system owner
