

2008 COMMITTEE NOTE

The form is amended at box seven on page one, and instructions two and seven on page two, to instruct the claimant that the information contained in or attached to a claim based on the delivery of health care goods or services should be limited so as to avoid embarrassment or the unnecessary disclosure of confidential information. The claimant is informed that additional disclosure may be required if the trustee or another party in interest objects to the claim.

Page two of the form is also amended to revise slightly the definitions of “creditor” and “claim” to conform more closely to the definitions of those terms in the Code.
