

Tom Lehman

- **A common architectures to explore coordinated advanced capabilities of optical networks**
- **Protocols for optical networks**

Jerry Sobieski

- **A definition of common services for experimental optical networks**
- **Examples**
 - **Inter-domain signaling**
 - **Monitoring**
 - **Services discoveries**
 - **SLAs**
- **JET/NRT Role**

Bill Wing

- **New JETnet coordination strategies as federal agencies develop new models of federal networks procurement based on customers-owned**
- **Customer-owned networks enable a greater flexibility to deploys and test new optical technologies**

- **4. Next Generation of StarLight – roadmap** - **Linda Winkler**

General Recommendations for JETnets
