**CERTIFICATION OF SMALL ENTITY STATUS FOR THE PURPOSES
OF ANNUAL FEES IMPOSED UNDER 10 CFR PART 171
FY 2009**

A licensee who qualifies as a small entity under a specific size standard established by the NRC may pay a reduced annual fee by filing the required certification on NRC Form 526, which is on the reverse side of this page. A separate NRC Form 526 is required for each invoice. Licensees who do not qualify under one of the 5 size standards shown on NRC Form 526 should disregard this form.

1. Complete all items on NRC Form 526 as follows: **(NOTE: Incomplete or improperly completed forms will be returned as unacceptable.)**
 - Enter the licensee's name and address exactly as they appear on the invoice. Annotate name and/or address changes for billing purposes on the payment copy of the invoice -- Correcting the name and/or address on NRC Form 526 or on the invoice does not constitute a request to amend the license.
 - Enter the invoice number exactly as it appears on the invoice.
 - Enter the company's business telephone number. Enter the license number exactly as it appears on the invoice.
 - Enter the contact person's name and email address. Enter the company's website address (if applicable), and the contact person's telephone number.
 - Check the appropriate size standard under which the licensee qualifies as a small entity. Check one box only. Note the following:
 - a. A licensee that is a subsidiary of a large entity, including foreign entities, does not qualify as a small entity. The calculation of a firm's size must include the employees or receipts of the parent company and all other affiliates. Affiliation with another concern is based on the power to control whether exercised or not. Such factors as common ownership, common management and identity of interest are indications of affiliation. The affiliated business concerns need not be in the line of business listed in the license.
 - b. Gross annual receipts, as used in the size standards, include all revenue received or accrued by your company from all sources, regardless of the form of the revenue, and not solely receipts from licensed activities. Receipts of a for-profit concern not engaged in manufacturing means average gross receipts over its last three completed fiscal years. (For additional information on calculating annual receipts, see 13 C.F.R. 121.104.) By contrast, number of employees of a manufacturing concern is based on employment during each pay period for the preceding 12 calendar months. (For additional information on calculating number of employees, see 13 C.F.R.121.106.)
 - c. NRC's size standards on small entity are generally based on the Small Business Administration's regulations (13 C.F.R. Part 121). However, where there is a direct conflict between the Small Business Administration's regulations and NRC regulations on the subject, NRC regulations are applicable to NRC licensees.
 - d. The size standards apply to the licensee, not to the individual authorized users who may be listed in the license.
 - e. If you are a manufacturer, enter your North American Industry Classification System business code in the narrow, elongated box provided for that purpose under MANUFACTURING INDUSTRY on Form 526. In accordance with the North American Industry Classification System (NAICS), each business is assigned a NAICS business code. If you do not know your NAICS business code it can be obtained on the internet at www.census.gov.
 - f. As used in Form 526, "educational institution" means an entity that has education as its primary function; that offers programs accredited by a nationally recognized accrediting agency or association; that is legally authorized to provide a program of organized instruction or study; that provides an educational program for which it awards academic degrees; and that makes its educational programs available to the public.

2. If the invoice states the "Amount Billed Represents 50% Proration," the amount due is not the prorated amount shown on the invoice, but rather one-half of the maximum small entity annual fee shown on NRC Form 526 for the size standard under which the licensee qualifies (either \$1,150 or \$250) for each category billed.
3. If the invoice amount is less than the reduced small entity annual fee shown on this form, pay the amount on the invoice; there is no further reduction. In this case, do not file NRC Form 526. However, if the invoice amount is greater than the reduced small entity annual fee, file NRC Form 526 and pay the amount applicable to the size standard you checked on the form.
4. The completed NRC Form 526 must be submitted with the required annual fee payment and the "Payment Copy" of the invoice to the address shown on the invoice.
5. 10 CFR 171.16(c)(3) provides that a licensee must submit a new certification with its annual fee payment each year. A licensee must pay the full amount of the invoice, if the licensee fails to submit NRC Form 526 at the time the annual fee is paid.
