* Employment is measured in March, thus some firms (start-ups after March, closures before March, and seasonal firms) will have zero employment and some annual payroll.

Notes: For state data, a firm is defined as an aggregation of all establishments owned by a parent company within a state.

Establishments are nonfarm locations with active payroll in any quarter.

Source: U.S. Small Business Administration, Office of Advocacy, based on data provided by the U.S. Census Bureau.

* Employment is measured in March, thus some firms (start-ups after March, closures before March, and seasonal firms) will have zero employment and some annual payroll.

Notes: For state data, a firm is defined as an aggregation of all establishments owned by a parent company within a state.

Establishments are nonfarm locations with active payroll in any quarter.

Source: U.S. Small Business Administration, Office of Advocacy, based on data provided by the U.S. Census Bureau.

* Employment is measured in March, thus some firms (start-ups after March, closures before March, and seasonal firms) will have zero employment and some annual payroll.

Notes: For state data, a firm is defined as an aggregation of all establishments owned by a parent company within a state.

Establishments are nonfarm locations with active payroll in any quarter.

Source: U.S. Small Business Administration, Office of Advocacy, based on data provided by the U.S. Census Bureau.

* Employment is measured in March, thus some firms (start-ups after March, closures before March, and seasonal firms) will have zero employment and some annual payroll.

Notes: For state data, a firm is defined as an aggregation of all establishments owned by a parent company within a state.

Establishments are nonfarm locations with active payroll in any quarter.

Source: U.S. Small Business Administration, Office of Advocacy, based on data provided by the U.S. Census Bureau.

* Employment is measured in March, thus some firms (start-ups after March, closures before March, and seasonal firms) will have zero employment and some annual payroll.

Notes: For state data, a firm is defined as an aggregation of all establishments owned by a parent company within a state.

Establishments are nonfarm locations with active payroll in any quarter.

Source: U.S. Small Business Administration, Office of Advocacy, based on data provided by the U.S. Census Bureau.

* Employment is measured in March, thus some firms (start-ups after March, closures before March, and seasonal firms) will have zero employment and some annual payroll.

Notes: For state data, a firm is defined as an aggregation of all establishments owned by a parent company within a state.

Establishments are nonfarm locations with active payroll in any quarter.

Source: U.S. Small Business Administration, Office of Advocacy, based on data provided by the U.S. Census Bureau.

* Employment is measured in March, thus some firms (start-ups after March, closures before March, and seasonal firms) will have zero employment and some annual payroll.

Notes: For state data, a firm is defined as an aggregation of all establishments owned by a parent company within a state.

Establishments are locations with active payroll in any quarter.

Source: Office of Advocacy, U.S. Small Business Administration, based on data provided by the U.S. Census Bureau.

* Employment is measured in March, thus some firms (start-ups after March, closures before March, and seasonal firms) will have zero employment and some annual payroll.

Notes: For state data, a firm is defined as an aggregation of all establishments owned by a parent company within a state. Establishments are locations with active payroll in any quarter.

Source: Office of Advocacy, U.S. Small Business Administration, based on data provided by the U.S. Census Bureau.

* Employment is measured in March, thus some firms (start-ups after March, closures before March, and seasonal firms) will have zero employment and some annual payroll.

Notes: For state data, a firm is defined as an aggregation of all establishments owned by a parent company within a state.

Establishments are locations with active payroll in any quarter.
