

## Small Business Profile: COLORADO

Entrepreneurs, innovators, and small businesses are key players in the economy of Colorado. They make up most of the employer firms in the state, and their contribution is indispensable. Their diverse composition and the spectrum of opportunities they offer are captured in this *Small Business Profile*, using the most current federal data available.

**Number of Businesses.** The state had an estimated total of 534,300 small businesses based on the most recent data.<sup>1</sup> Firms with employees numbered 152,434 in 2005, of which an estimated 97.7 percent or 148,928 were small firms (fewer than 500 employees). Self-employment (including incorporated) decreased by 4.5 percent, from 350,403 in 2004 to 334,667 in 2005.<sup>2</sup> In 2004, non-employer firms increased by 4.2 percent and numbered 385,326. (Sources: U.S. Dept. of Labor, Employment and Training Administration; U.S. Dept. of Commerce, Census Bureau; U.S. Dept. of Labor, Bureau of Labor Statistics.)

**Women-Owned Firms.** Firms owned by women increased 18 percent between 1997 and 2002, from 114,807 to 135,220; they represented 29.1 percent of the state's total businesses in 2002. These firms (with and without paid employees) generated \$16.4 billion in revenues in 2002. Of the total number of women-owned firms, 15.9 percent or 21,490 firms were employer firms. In 2005, self-employed women totaled 130,504, a decrease of 5.8 percent from 2004, and they represented 39.0 percent of self-employed persons in the state. (Sources: U.S. Dept. of Labor, Bureau of Labor Statistics; U.S. Dept. of Commerce, Census Bureau.)

**Minority-Owned Firms.**<sup>3</sup> In 2002, Asian-owned firms totaled 10,910 and generated \$2.5 billion in receipts; Black-owned firms numbered 7,066 and generated \$758 million in receipts; and Hispanic-owned businesses totaled 24,054 and created \$5.1 billion in receipts. American Indian- and Alaska Native-owned firms numbered 3,931, and they generated \$528 million in receipts; the number of Native Hawaiian- and other Pacific Islander-owned firms was 391, and they generated \$35 million in receipts in 2002. (Source: U.S. Dept. of Commerce, Census Bureau.)

<sup>1</sup> The Office of Advocacy's estimated total of state small businesses is based on the percent of small businesses (2003 Census firm size data) multiplied by the state's total number of employer businesses in 2005 (Dept. of Labor). The 2004 number of non-employer firms is added to this total (Census Bureau).

<sup>2</sup> The definition of self-employment has changed; as a result, statistics in the *Small Business Profiles* before 2004 are not comparable.

<sup>3</sup> Minority owners may belong to more than one minority group, so adding the different groups will result in double counting.

**Business Turnover.** New employer businesses in 2005 were estimated at 26,610, which is 12.3 percent more than the previous year. Business bankruptcies increased by 42.5 percent, to 1,120 in 2005, while business terminations increased by 44.2 percent, to 14,035 during the same period. (Sources: U.S. Dept. of Labor, Employment and Training Administration; Administrative Office of the U.S. Courts.)

**Employment.** There were 118,582 employer firms with fewer than 500 employees in 2003;<sup>4</sup> they provided 981,726 jobs in the state. These firms represented 97.7 percent of the employer businesses in the state and employed 52.1 percent of the state's non-farm private sector workforce (Table 1). Between 2002 and 2003, total small business net new jobs amounted to 2,760 (Table 2). (Source: U.S. Dept. of Commerce, Census Bureau, Statistics of U.S. Businesses.)

**Small Business Income.** Non-farm proprietors' income, which is a partial measure of small business income, increased by 6.6 percent to \$22.9 billion in 2005. (Source: U.S. Dept. of Commerce.)

**Finance.**<sup>5</sup> Two important sources of small business financing are commercial banks and savings and loan institutions, which owners rely on for their financial needs. The total number of operating bank and savings bank branches in the state increased in 2005 (Table 3). A list of financial institutions in each state that make loans to small businesses has been compiled by the Office of Advocacy and is available at: [www.sba.gov/advo/research/lending.html](http://www.sba.gov/advo/research/lending.html).

<sup>4</sup> The latest year for which the data by size classification exist.

<sup>5</sup> This year's edition of *Small Business Profiles* covers the state's number of branches of commercial banks and savings institutions. Previous reports covered a smaller number of financial institutions—only parent banks, not their branches or those of savings institutions.
